Health Level Seven International® thanks you for your participation in the February 2020 Ballot cycle and wants to make you aware of the following important update(s) as described below:

Note: FHIR has recently changed from using gForge to using Jira to capture feedback. While submitting ballot comments using spreadsheets is still supported, balloters responding to FHIR ballots are encouraged to submit items into Jira instead and only use spreadsheets to reference their submitted Jira comments. Ballot votes on individual comments must still be submitted with spreadsheets even if the comments are submitted using Jira, though we anticipate migration of the full ballot process to Jira (eliminating the need for spreadsheets) later this year.

Items Withdrawn from Balloting

- The item titled "HL7 FHIR® Implementation Guide: Single Institutional Review Board Project (sIRB), Release 1- US Realm" [Project Insight id 1540, 1st Informative Ballot] has been withdrawn from balloting this cycle.
- The item titled "HL7 FHIR® Implementation Guide: DME Orders, Release 1- US Realm" [Project Insight id 1496, 1st STU Ballot] has been withdrawn from balloting this cycle.
- The item titled "HL7 Cross Paradigm Specification: Health Service Reference Architecture (HL7-HSRA), Release 1" [Project Insight id 1407, 1st Informative Ballot] has been withdrawn from balloting this cycle.
- The item titled "HL7 FHIR® Implementation Guide: Breast Cancer Data Radiology Reporting, Release 1 - US Realm" [Project Insight ID 1363, 1st STU Ballot] has been withdrawn from balloting this cycle.
- The item titled "HL7 Version 2 Implementation Guide: v2-to-FHIR, Release 1" [Project Insight ID 1481, 1st Comment-Only Ballot] has been withdrawn from balloting this cycle.
- The item titled "HL7 EHR-S FM R2.1 Functional Profile: Podiatry, Release 1- US Realm" [PI ID 1352, 1st STU Ballot] has been withdrawn from balloting this cycle.
- The item titled "HL7 Domain Analysis Model: Intra-Procedure Anesthesia, Release 1" [PI ID 1153, 1st Informative Ballot] has been withdrawn from balloting this cycle.
Changes to Ballot Titles/Levels

- The ballot item originally announced as "HL7 FHIR® Implementation Guide: Blue Button, Release 1- US Realm" had its title changed to "HL7 FHIR® Implementation Guide: Consumer-Directed Payer Data Exchange, Release 1- US Realm" by the TSC. This did not result in a change to the unique Ballot ID.

- The ballot item originally announced as "HL7 FHIR® Implementation Guide: FHIRCast, Release 1" had its title changed to "HL7 FHIR® Implementation Guide: FHIRcast, Release 1" by the TSC to un-capitalize the C on request of the project team. This did not result in a change to the unique Ballot ID.

**NOTE:** Changes to the ballot items announced in the initial " Announcement of Ballot Openings for February 2020 Ballot Cycle" will continue to be updated in this document as necessary.
