Health Level Seven, Inc.
EDUCATIONAL SUMMIT
July 10 – 12, 2007

Cambridge, MA
The Hyatt Regency Cambridge Hotel
575 Memorial Dr., Cambridge, MA 02139

Gain In-Depth HL7 Knowledge & Certification Straight from the Source
HL7 is the Sole Source for HL7 Certification Testing! See Inside for Details.

Early Bird Registration Ends June 20, 2007
Online Registration Ends July 2, 2007

Register Today!
www.HL7.org

®Health Level Seven and HL7 are registered trademarks of Health Level Seven, Inc., registered in the U.S. Trademark Office.
Among the benefits of attending the HL7 Educational Summit are:

**Location**
Cambridge, MA – The Hyatt Regency Cambridge Hotel is located just seven miles from the Logan International Airport. The hotel is only a few blocks away from Harvard Square, Faneuil Hall, Boston Public Garden, sports events (Red Sox, Celtics, Patriots, Bruins), fine art museums, shopping and dining. Minutes from Boston, the Hyatt Regency Cambridge hotel is located along the scenic Charles River overlooking the Boston skyline and is in the midst of two uncommonly exciting cities, Boston and Cambridge. Each exhibits a unique blend of old world charm coupled with youthful, contemporary sophistication. Cambridge is the spirit side of Boston and just a bridge away on the historic side.

**Quality**
Our high-quality training in a small classroom setting promotes more one-on-one learning.

**Expert Instructors**
You’ll get HL7 training straight from the source. Our instructors are not only HL7 experts—they are the people who help produce the HL7 standards.

**Certification Testing**
Become HL7 Certified. HL7 is the sole source for HL7 certification testing—now offering testing on Version 2.5 and Clinical Document Architecture (CDA).

**Economical**
Educational Summits offer a more economical alternative for companies who want the benefits of HL7’s on-site training but have fewer employees to train.

**What is an Educational Summit?**
An HL7 Educational Summit is a three-day educational event where live tutorial sessions, specially selected by the HL7 Educational Committee, are taught to those interested in learning more about, and implementing the HL7 standards and related work products. These tutorials focus on HL7-specific topics such as Version 2, Version 3 and Clinical Document Architecture as well as general interest industry topics such as Electronic Health Records and Claims Attachments.

**Why Should I Attend?**
This is an invaluable educational opportunity for the healthcare IT community as it strives for greater interoperability among healthcare information systems. Our classes offer a wealth of information designed to benefit a wide range of HL7 users, from beginner to advanced. You’ll take away valuable HL7 knowledge and skills that you’ll be able to apply immediately in the real world.
General Information

Cancellation/Refund Policy
Prepaid registrants who cancel prior to June 20, 2007 will receive a full refund minus a $50 processing fee. After that date no refunds will be given. Tutorials that do not meet minimum attendance requirements may be cancelled. In this event, registrants may attend an alternate tutorial of their choosing or request a refund for the cancelled tutorial only.

Hotel
The Educational Summit will be held at the Hyatt Regency Cambridge Hotel, 575 Memorial Drive, Cambridge, Massachusetts 02139-4896. To reserve your room, please call the hotel directly at +1 (617) 492-1234 or +1 (800) 233-1234. Be sure to mention you are with the Health Level Seven room block. The special HL7 rate is $189 plus tax per night. You must register by June 20, 2007 to receive this rate.

Ground Transportation and Parking
Taxi fare from the Logan International Airport to the hotel is approximately $35. The charge for parking at the hotel is $28 per day with in and out privileges. You may also choose valet parking for $28 per day for overnight guests or $30 per car for local guests. This is a lower rate, so be sure to tell them you are with Health Level Seven. There is also an airport Subway that stops 1.5 miles away from the hotel (seven stops), an above ground BU Central Green Line (seven stops), and an Underground Harvard Square or Kendall Square Red Line Subway that costs $1.25.

Air Travel
To make travel arrangements, attendees can call Conlin Travel at +1 (800) 783-9559 or +1 (734) 677-0900. Be sure to mention Health Level Seven when calling.

Avis Rent-a-Car
HL7 has secured special rates from Avis for this meeting. To take advantage of these rates, please call Avis at +1 (800) 331-1600, mention that you’re part of the HL7 group, and provide the following Avis Meeting Rate Discount Number: D188914. You may also log in at: www.avis.com.

Meals
A continental breakfast and buffet lunch is included with each day’s tutorial registration fee. Lunch is from 12:30 pm to 1:30 pm each day. Refreshment breaks will also be provided each day at 10:30 am and 3 pm.

Networking Reception
Don’t miss the HL7 Networking Reception, Tuesday, July 10, 2007 from 5:15 pm to 6:30 pm.

Be sure not to miss the
**HL7 Networking Reception**
Tuesday, July 10, 2007 from 5:15–6:30 pm
How Do I Register?

Mail
Please complete the registration form on the inside of this brochure and mail it (along with credit card information or a check payable to Health Level Seven in U.S. funds drawn on a U.S. bank ONLY) to the following address:

Health Level Seven
3300 Washtenaw Ave. Suite #227
Ann Arbor, MI 48104 USA

Fax
You may fax registration & credit card information to:
+1 (734) 677-3128.

Register Online
Online registration is available until the end of the day on July 2, 2007 at www.HL7.org. For your convenience, you can pay via credit card directly on the website, or print the registration form and mail or fax it with payment.

Early Bird Registration
Registrations and payment must reach us by June 20, 2007 to receive the special Early Bird rate. Please see the registration form on the inside back page.

Advance Registration/Payment
Advance registrations MUST include payment. Registrations received without payment will not be processed until the time that payment is received.

On-site Registration
On-site registrations will be accepted July 10–12, 2007. Payment in full is required at the time of registration.

For more information, please contact the HL7 Registration Center at:
+1 (734) 677-3126 or reginfo@HL7.org.
**Intro to Version 2.x: Parts 1 & 2 (T1)**
*Tuesday, July 10 / 9:00 am – 5:00 pm*

This tutorial introduces students to HL7 and the basic concepts of Version 2. It covers some of the standard’s fundamental chapters including Control, Patient Administration, Order Entry and Results Reporting.

**This Tutorial Will Benefit:**
- Those new to HL7

**Faculty:**
*Mike Henderson: Principal Consultant, Eastern Informatics*

---

**Clinical Document Architecture (CDA) Introductory Tutorial (T2)**
*Tuesday, July 10 / 9:00 am – 12:30 pm*

The Clinical Document Architecture is HL7’s specification for standards-based exchange of electronic clinical documents. CDA is based on the concept of scalable, incremental interoperability and uses Extensible Markup Language (XML), the HL7 Reference Information Model (RIM), and controlled terminology for structure and semantics. This tutorial presents the business case for CDA, its primary design principles, and an overview of the technical specification. The session describes CDA projects in the United States, Europe and Asia/Pacific; the tools available for CDA creation, management and distribution; and the current CDA implementation guides, including the Continuity of Care Document (CCD), the History and Physical and other document types under development.

**This Tutorial Will Benefit:**
- Healthcare providers and exchange network architects considering CDA implementation
- Product managers considering support for CDA
- Public health officials and those with structured information reporting requirements
- Implementers of all kinds beginning to work with CDA

**Prerequisites:**
- Introduction to Version 3 (Part 1) recommended

**Faculty:**
*Liora Alschuler: Co-Editor, CDA; Co-Chair, HL7 Structured Documents TC; HL7 Board of Directors; Principal, Alschuler Associates, LLC*

---

**Introduction to Vocabulary (T3)**
*Tuesday, July 10 / 9:00 am – 12:30 pm*

Brief topics include vocabulary use in information models, the CDA, templates, and information models. It will give a short overview of terminology concepts and some frequently used terminologies in HL7, as well as an introduction to Common Terminology Services. Some of these topics are dealt with more comprehensively in the Application of Vocabulary tutorial.

**This Tutorial Will Benefit:**
- Those seeking an overview to terminology in HL7, and LOINC and SNOMED in particular

**Faculty:**
*W. Ted Klein, MS: Co-Chair, HL7 Vocabulary TC, Ted Klein Consulting*

---

**Clinical Document Architecture (CDA) Part II (T4)**
*Tuesday, July 10 / 1:45 pm – 5:00 pm*

CDA implementation requires understanding the CDA refinement of the RIM (the CDA RMIM), the Version 3 data types, and how these combine with controlled vocabularies to form “clinical statements.” This tutorial reviews the principles of semantic interoperability and how these are reflected in the CDA model and implemented in the CDA schema. It also reviews the CDA RMIM, schema and data types. In addition, the tutorial gives a detailed walkthrough of samples of CDA documents, coded using Clinical Statements.

**This Tutorial Will Benefit:**
- Those needing to learn more about CDA, Release 2, its derivation from the RIM, and issues relevant to implementing CDA 2.0 solutions
- Implementers needing to work with CDA, and wanting a review of the details

**Upon Completion of This Tutorial, Students Will Know:**
- The basic role and integration of terminologies into HL7 messages
- An understanding of the LOINC and SNOMED systems

**Faculty:**
*Liora Alschuler: Co-Editor, CDA; Co-Chair, HL7 Structured Documents TC; HL7 Board of Directors; Principal, Alschuler Associates, LLC*

---
Introduction to Version 3:
Parts 1 & 2 (W6)
Wednesday, July 11 / 9:00 am – 5:00 pm

This class provides a general overview and introduces fundamental concepts required to understand Health Level Seven’s newly emerging Version 3 family of standards.

Included in the class is:
- The general rationale for Version 3
- Overview of Version 3’s two key concepts—messaging and documents (CDA)
- Overview of the Version 3 publication (ballot and standard)
- Essential concepts and terminology necessary to understand the static models of Version 3 used by all Version 3 objects (messages, documents, etc)
- Introduction to the Version 3 dynamic model for message interactions
- How a simple message is wrapped for transmission

A walkthrough of a simple example will be provided. The latest Version 3 ballot publication can be accessed and downloaded from: http://www.hl7.org/v3ballot/html/welcome/introduction/index.htm.

This Tutorial Will Benefit:
- Anyone interested in Version 3 implementation or standards development
- Anyone interested in more advanced Version 3 classes on messaging and CDA

Upon Completion of this Tutorial, Students Will Have Obtained the Following:
- General understanding of the purpose, function, and format of Version 3 messaging and documents
- Proficiency in Version 3 terminology including the RIM, RMIM, and all messaging components
- Knowledge of scope, contents, and organization of the Version 3 publications

Prerequisites:
- Experience with healthcare interfacing would be helpful
- Experience or training with systems (development, integration, and/or implementation) required
- It is assumed that the student has some familiarity with the HL7 organization and its processes (balloting procedures, etc)

Faculty:
Mead Walker: Chair, HL7 Architectural Review Board; Mead Walker Consulting
Version 2 Message Profiles and Conformance (W7)
Wednesday, July 11 / 9:00 am – 12:30 pm

This course is designed to explore the concept of conformance within HL7 Version 2 as described in Chapter 2 of Version 2.5. Additionally, this tutorial will demonstrate how we can apply message profiling to interoperability by improving clarity, simplifying implementations and streamlining testing. Participants will be introduced to tools that facilitate analysis and interoperability while, at the same time, fully documenting HL7 conformance.

This Tutorial Will Benefit:
• Anyone interested in HL7 interoperability

Upon Completion of This Tutorial, Students Will Know:
• How to measure conformance using message profiling
• How vendors can document their applications' implementations
• How providers can improve their RFP results by using message profiling
• How to use message profiles developed for specific domains
• The tools available to facilitate HL7 Version 2.x conformance efforts (Messaging Workbench and the Global Profile Library)
• More about HL7 conformance certification
• How to develop HL7 conformance documentation for Version 2

Prerequisites:
• Working knowledge of HL7 or other EDI standards (ASTM, X12)

Faculty:
Mike Henderson: Principal Consultant, Eastern Informatics

CDA Certification Test Preparation (W8)
Wednesday, July 11 / 9:00 am – 12:30 pm

Upon completion of this tutorial, students will be better prepared to take the CDA Certification Exam.

This Tutorial Will Benefit:
• Anyone preparing for the CDA Certification Exam
• System analysts or clinical application developers wanting in-depth understanding of the CDA Release 2.0 standard

Prerequisites:
• Participants are encouraged to carefully read the CDA Release 2.0 standard
• Introduction to Version 3 (Part 1), as well as the CDA Introductory and Advanced tutorials are strongly recommended

Faculty:
Liora Alschuler: Co-Editor, CDA; Co-Chair, HL7 Structured Documents TC; HL7 Board of Directors; Principal, Alschuler Associates, LLC

V2.5 Control Specialist Certification Review (W9)
Wednesday, July 11 / 1:45 pm – 5:00 pm

This tutorial reviews the message definition and processing rules and data type definitions of the Control chapters of the HL7 Version 2.5 standard. Upon completion of this tutorial, students will be better prepared to take the HL7 V2.5 Control Specialist Certification Exam. Note that students are also expected to prepare for the exam by previous study of Chapter 2 (Control) and Chapter 2A (Data Types) of the HL7 Version 2.5 standard.

This Tutorial Will Benefit:
• Anyone preparing for the HL7 Control Specialist Certification Exam
• Interface analyst specialists and managers who need to understand the technical aspects of HL7 interfaces

Faculty:
Mike Henderson: Principal Consultant, Eastern Informatics
Electronic Health Record (EHR) (W10)
Wednesday, July 11 / 1:45 pm – 5:00 pm

This informative tutorial provides an in-depth look at the EHR-S Functional Model, the industry's first ANSI accredited standard for EHR system functionality. The tutorial will show the relationship between the HL7 EHR-S standard and product certification from the Certification Commission for Healthcare Information Technology (CCHIT), standards harmonization from the Healthcare Information Technology Standards Panel (HITSP), and other standards initiatives. In addition, conformance to the standard through the Legal EHR, ED and other functional profiles, as well as the Functional Model’s relationship with the Interoperability Model, will be discussed.

Note: This is a system functional standard, not a messaging, document, or data standard.

This Tutorial Will Benefit:
• Those seeking information on standards for Electronic Health Record system functionality and its relationship to certification of EHR systems, as well as to Personal Health Record (PHR) systems

Upon Completion of This Tutorial, Students Will Know:
• The difference between the CPR, EMR, EHR, EHR-S, and the PHR
• How to interpret the conformance criteria of the EHR-S Functional Model
• How to use the Functional Model to develop conformance and care setting profiles
• How the industry can use/is using the Functional Model for EHR product development, system selection, and product certification
• Some background and status of HL7 and other industry projects supporting EHR standards

Faculty:
Donald T. Mon, PhD: Co-Chair, HL7 EHR Technical Committee; Co-Facilitator, HL7 EHR Functional Model-Direct Care Section; Co-Facilitator, HL7 PHR Work Group; Vice President, Practice Leadership, American Health Information Management Association (AHIMA)

HL7 V2.5 Certification Exam (W11)
Wednesday, July 11 / 5:15 pm – 7:15 pm

Health Level Seven is pleased to offer certification testing on HL7 Version 2.5, Chapter 2: Control. Certification testing is offered to those industry participants who are expected to have a working knowledge of the HL7 Messaging Standard. Interface analysts, healthcare systems analysts, medical software programmers, and medical informatics faculty and students are all potential candidates. The knowledge required to pass the exam can be obtained by participation in the HL7 working group meetings, by attending HL7 education sessions, by field work dealing with HL7 interfaces, or simply by self-study of Chapter 2 and 2A of the HL7 Standard Version 2.5 (the standard may be obtained via HL7 membership or non-member purchase on www.HL7.org).

Note: Simply taking the courses offered at this summit will most likely not be sufficient to pass the test. We strongly recommend a combination of the aforementioned to fully prepare yourself for the exam.

HL7 CDA Certification Test (W12)
Wednesday, July 11 / 5:15 pm – 7:15 pm

Health Level Seven is pleased to offer certification testing on HL7 CDA Release 2.0.

Certification testing is offered to those participants who want to demonstrate that they have a working knowledge of the CDA Release 2.0 standard. Healthcare systems analysts, medical software programmers, and medical informatics faculty and students are all potential candidates.

The knowledge required to pass the exam can be obtained by attending HL7 education sessions, by field work dealing with HL7 CDA based applications, or simply by self-study of the HL7 CDA Release 2.0 standard. Please refer to the Study Guide on the HL7 Training and Certification page of the HL7 website for details on the content covered by the test.

Note: Simply taking the courses offered at this summit will most likely not be sufficient to pass the test. We strongly recommend a combination of the aforementioned to fully prepare yourself for the exam.

Service Oriented Architecture in Healthcare IM/IT (TH13)
Thursday, July 12 / 9:00 am – 12:30 pm

Service Oriented Architectures (SOAs) are a hot topic in the IT world, and form part of the technological foundation for many developers and architects coming to the healthcare industry. At the same time, IT professionals and CIOs already within the healthcare space see tremendous value in the application of SOA principles to core IT problems. This tutorial will discuss a working definition of SOA, ongoing efforts at SOA within the HL7 community, and the applicability of SOA to new and legacy enterprise healthcare applications.
This Tutorial Will Benefit:
• HL7 developers, IT professionals, CIOs, CTOs, and business analysts

Upon Completion of This Tutorial, Students Will Know:
• The difference between SOAs and services
• The SOA Roadmap for HL7
• The difference between message systems and service systems
• The applicability of services and SOA to different healthcare implementations
• Ways to leverage ongoing standards work

Faculty:
John J. Koisch: Co-Chair, HL7 Services Oriented Architecture Special Interest Group; Senior SOA Architect, VHA

HL7 Version 3 Reference Models (TH14)
Thursday, July 12 / 9:00 am – 12:30 pm

This tutorial provides an in-depth review of the HL7 Version 3 reference models (RIM, Data Type, and Vocabulary). The HL7 Version 3 Reference models are the foundation of HL7 Version 3. They are the models from which all Version 3 domain specifications are derived. This tutorial will expose the student to the details of the Reference Information Model (RIM), data types and vocabulary specifications.

This Tutorial Will Benefit:
• HL7 Version 3 specification developers and implementers
• Anyone interested in the HL7 RIM

Upon Completion of This Tutorial, Students Will Know:
• The HL7 Reference Information Model
• The HL7 Version 3 Data Type Abstract Specification
• HL7 Version 3 vocabulary principles and specifications

Prerequisites:
• None, however exposure to HL7 Version 3 methodology is helpful

Faculty:
Mead Walker: Chair, HL7 Architectural Review Board; Mead Walker Consulting

CCOW Overview Tutorial (TH16)
Thursday, July 12 / 1:45 pm – 5:00 pm

This tutorial describes the HL7 CCOW specification and its front-end based approach to the visual integration of Web and Windows based applications. The CCOW specification describes the architecture and interfaces used by applications and context management infrastructure components to synchronize multiple applications on the clinical desktop. The end-user of CCOW enabled applications experiences synchronization between the applications as if they were part of a single system, instead of behaving as multiple independent applications from different vendors.

This Tutorial Will Benefit:
• Healthcare application developers wanting to CCOW enable their application
• Healthcare providers looking to make their clinicians more efficient
• Anyone desiring an understanding of the CCOW specification

Prerequisites:
• Some knowledge of HL7 Version 2 (which could be obtained from the introductory tutorial) would be helpful. Otherwise, experience with healthcare systems implementation.

Faculty:
Jonathan Wu: Senior Software Engineer, Sentillion
**Version 3 Messaging Implementation Analysis and Specification (TH17)**

Thursday, July 12 / 1:45 pm – 5:00 pm

The use of HL7 Version 3 to implement interfaces within a particular application context can have hidden complexities. While Version 3 has been designed to reduce the amount of required site-specific negotiation, it is not possible to simply pull the message specification(s) “out of the box” and install it. This tutorial guides the student through the analysis process, and addresses issues necessary for building robust interface solutions.

**This Tutorial Covers:**
- Documentation of message specifications
- Implementation considerations for data types
- Managing vocabulary from the implementation perspective
- Procedures to address refinement and localization of the standard
- Tips and strategies for successful implementation

This class also provides a lead-in for Version 3 Implementation Part 2: Implementation Mechanics.

**This Tutorial Will Benefit:**
- Analysts and architects who need to map HL7 Version 3 messages to or between computer applications
- Project managers responsible for Version 3 implementation projects
- Anyone considering Version 3 early adoption

**Upon Completion of This Tutorial, Students Will Know:**
- How to develop and carry out a plan for creating Version 3 interfaces
- How to read and write Version 3 message specifications
- How to design tips and strategies

**Prerequisites:**
- A basic understanding of Version 3 is a requirement (such as the Introduction to Version 3 Tutorials). More advanced tutorials (XML ITS and Wrappers) are encouraged as well. Previous experience in Version 2 implementations will be of value.

**Faculty:**
Mead Walker: Chair, HL7 Architectural Review Board; Mead Walker Consulting

---

**RIM-Based Relational Database Design (TH18)**

Thursday, July 12 / 1:45 pm – 5:00 pm

This tutorial explores the process of designing a relational database structure based upon the HL7 Reference Model. It presents the process of normalization including analysis of data types, repeating attributes, and inheritance structures. It also addresses design issues such as the selection of primary and foreign keys, de-normalization, and constraining code values. This tutorial uses database design examples from projects conducted by the Centers for Disease Control and Prevention, the California Department of Health Services, and the Los Angeles Department of Public Health.

**This Tutorial Will Benefit:**
- Anyone considering designing a physical database based upon the HL7 RIM
- Anyone in public health looking to create a Public Health Information Network (PHIN) compliant operational data store

**Prerequisites:**
- A understanding of HL7 RIM, Data Type, and Vocabulary specifications
- Some understanding of database design practices and principles

**Faculty:**
Abdul-Malik Shakir: Co-Chair, HL7 Education Committee; Principal Consultant, Shakir Consulting
**MEETING REGISTRATION FORM**

EARLY BIRD prices are reflected in RED below. EARLY BIRD registrations with payment must reach us by the end of the day on June 20, 2007. Advance registration must be received with payment by the end of the day on July 2, 2007. After this date, registrations must be made and paid for ON-SITE ONLY. A continental breakfast, buffet lunch and two refreshment breaks are included each day as well as a networking reception on Tuesday evening with the price of registration.

1. **Contact Information:**

   Last Name | First Name | Nickname  
   ----------|------------|-----------
   Organization | Email |

   (This name will appear on your badge.)

   Address

   City | State | Zip | Country

   Telephone | Fax

2. **Registration Fees:**

   Registrants are eligible for all tutorials on the day(s) for which they’ve registered. However, HL7 Certification Testing is not included in the packages and must be registered for separately.

   **Register Online: www.HL7.org**

   **Options**

   - Single day: (Check One)  
     - Tues. ☐  Wed. ☐  Thurs. ☐
   - Two day:
   - Three day:

   **Members**

   - Early Bird: $900
   - Standard Rate: $1,500

   **Non-Members**

   - Early Bird: $1,295
   - Standard Rate: $1,555

   **Tutorials:**

   - HL7 V2.5 Certification Exam: $130  
   - HL7 CDA Certification Exam: $130  

   **TOTAL**

   Member: _________________________  
   Non-Member: _________________________

   ☐ I have joined HL7 as a member within the past 30 days.
   ☐ I am a member of an HL7 International Affiliate, employee of an HL7 organizational member or member of another eligible organization (ADA, ASTM, IEEE, IHE, CDISC, DICOM, EHI, Medbiquitous, CEN, OMG, NCPDP, SNOMED, or X12N) and eligible for the member rate. Please list affiliate or organization:

3. **Payment Information:**

   Payment must be included in order to process your registration.

   **Method of Payment:** (U.S. Dollars, drawn on U.S. Bank Only)  
   - Check (Make check payable to Health Level Seven, Inc.)

   Credit Card: ☐ Visa  ☐ Master Card  ☐ American Express  ☐ Diner’s Club

   Number | Exp. Date | Name on Card (please print) | Signature

4. **Schedule of Tutorials:**

   IMPORTANT: Check the box(es) next to the classes for which you’re registering. Schedule is subject to change.

   **Tuesday, July 10**

**MAIL:** Please mail the completed registration form to:  
Health Level Seven  
3300 Washtenaw Ave., Suite #227  
Ann Arbor, MI 48104, USA

**FAX:** You may fax registration & credit card information to:  
+1 (734) 677-3128

You will receive a confirmation of registration by mail. If you do not receive confirmation within two weeks, please call HL7 Registration at +1 (734) 677-3126. Please bring your confirmation materials to the meeting with you.
Boston, MA

Boston’s role in shaping American history is unique among all other cities. People are eager to see the places where the American Revolution began. From Paul Revere’s House to the Boston Tea Party Ship to the Old North Church, history is on every corner in Boston.

Boston’s premier attraction, the Freedom Trail, is a walking tour through historic Boston, encompassing 16 of the most treasured sites in American history. The Freedom Trail is an actual red line painted on the sidewalks and streets of Boston. Besides guiding a visitor to the historic sites, the Freedom Trail is an excellent way to tour the city as it winds through many diverse neighborhoods.

Visitors to Boston are never at a loss for something to do. Boston’s many museums, concert halls, theaters, and nightclubs are always abuzz with activity and excitement. From the internationally acclaimed Museum of Fine Arts, the Museum of Science and the John F. Kennedy Library & Museum, to the famous Boston Symphony Orchestra and Boston Pops, to an abundant local and pre-Broadway theater scene, Boston’s cultural and entertainment options are bountiful.

Known as the “Athens of America,” Boston’s renowned medical and educational institutions have helped to make it an international center of learning and intellectual activity. The metropolitan area’s 35 hospitals and more than 60 colleges and universities are a vast resource.

Copy and photos courtesy of the Greater Boston Convention & Visitor’s Bureau.
