Health Level Seven, Inc.®

EDUCATIONAL SUMMIT

November 4–6, 2008
Salt Lake City, Utah

Embassy Suites Hotel
110 W. 600 South Street • Salt Lake City, UT 84101

Early Bird Registration Ends October 7, 2008
Online Registration Ends October 24, 2008

Gain In-Depth HL7 Knowledge & Certification Straight from the Source
HL7 is the Sole Source for HL7 Certification Testing! See Inside for Details.

®Health Level Seven and HL7 are registered trademarks of Health Level Seven, Inc., registered in the U.S. Trademark Office.
WHAT IS AN EDUCATIONAL SUMMIT?

An HL7 Educational Summit is a three-day educational event where live tutorial sessions, specially selected by the HL7 Educational Committee, are taught to those interested in learning more about and implementing the HL7 standards and related work products. These tutorials focus on HL7-specific topics such as Version 2, Version 3 and Clinical Document Architecture as well as general interest industry topics such as Electronic Health Records and Vocabulary.

WHY SHOULD I ATTEND?

This is an invaluable educational opportunity for the healthcare IT community as it strives for greater interoperability among healthcare information systems. Our classes offer a wealth of information designed to benefit a wide range of HL7 users, from beginner to advanced. You’ll take away valuable HL7 knowledge and skills that you’ll be able to apply immediately in the real world.

AMONG THE BENEFITS OF ATTENDING THE HL7 EDUCATIONAL SUMMIT ARE:

Location
Salt Lake City, UT – The Embassy Suites Hotel is located in downtown Salt Lake City and is only seven miles from Salt Lake International Airport and six blocks from the Energy Solutions Arena, the LDS Mormon Temple, the Family History Center, the Gateway Shopping Center and the Clark Planetarium. Guests at the hotel can dine in the Plum restaurant or entertain in Clouseau’s, the private club. The hotel is surrounded by many restaurants and entertainment venues. Guests of the Embassy Suites Hotel in downtown Salt Lake City stay in spacious two-room suites and receive a complimentary cooked-to-order breakfast and a nightly manager’s reception. High-speed Internet access is available throughout the hotel.

Efficiency
Our concentrated three-day format provides maximum training with minimal time investment.

Quality
Our high-quality training in a small classroom setting promotes more one-on-one learning.

Expert Instructors
You’ll get HL7 training straight from the source. Our instructors are not only HL7 experts—they are the people who help produce the HL7 standards.

Certification Testing
Become HL7 Certified. HL7 is the sole source for HL7 certification testing—now offering testing on Version 2.5, Clinical Document Architecture (CDA) and Version 3 Reference Information Model (RIM).

Economical
Educational Summits offer a more economical alternative for companies who want the benefits of HL7’s on-site training but have fewer employees to train.

GENERAL INFORMATION

Cancellation/Refund Policy
Prepaid registrants who cancel prior to October 7, 2008 will receive a full refund less a $50 processing fee. After that date no refunds will be given. Tutorials that do not meet minimum attendance requirements may be cancelled. In this event, registrants may attend an alternate tutorial of their choosing or request a refund for the cancelled tutorial only.

Hotel
The Educational Summit will be held at the Embassy Suites Salt Lake City, Utah, 110 W 600 South Street, Salt Lake City, Utah 84101. To reserve your room, please call the hotel directly at +1 (800) 325-7643.
Be sure to mention you are with the Health Level Seven room block. The special HL7 rate is $149 plus tax per night. You may also register online at http://embassysuites.hilton.com/en/es/groups/personalized/SLCTME-S-HLS-20081031/index.jhtml. You must register by the end of the day, ET on October 7, 2008 to receive this rate.

Ground Transportation and Parking
The hotel is located seven miles from the airport. There is a courtesy van/shuttle service to and from the Salt Lake City International Airport. Please go just outside of the baggage claim area to find the shuttle.

If you travel by taxi, the charge is approximately $20. Hotel parking is complimentary.

Air Travel
To make travel arrangements, attendees can call Conlin Travel at +1 (800) 783-9559 or +1 (734) 677-0900. Be sure to mention Health Level Seven when calling.

Meals
A buffet lunch is included with each day’s tutorial registration fee. Lunch is from 12:30 pm to 1:30 pm each day. Refreshment breaks will also be provided each day at 10:30 am and 3:00 pm. HL7 will not be providing breakfast because hotel guests receive a full hot breakfast included with their stay.

Networking Reception
The hotel offers a reception every evening from 5:30 – 7:30 pm in the Atrium.

HOW DO I REGISTER?

Mail
Please complete the registration form on the inside of this brochure and mail it (along with credit card information or a check payable to Health Level Seven in U.S. funds drawn on a U.S. bank ONLY) to the following address:

Health Level Seven
3300 Washtenaw Ave. Suite #227
Ann Arbor, MI 48104 USA

Fax
You may fax registration and credit card information to: +1 (734) 677-6622.

Register Online
Online registration is available until the end of the day, ET on October 24, 2008 at www.HL7.org. For your convenience, you can pay via credit card directly on the website, or print the registration form and mail it with payment.

Early Bird Registration
Registrations and payment must reach us by the end of the day, ET on October 7, 2008 to receive the special Early Bird rate. Please see the registration form on the inside back page.

Advance Registration/Payment
Advance registrations MUST include payment. Registrations received without payment will not be processed until the time that payment is received.

On-Site Registration
On-site registrations will be accepted November 4-6, 2008. Payment in full is required at the time of registration.

For more information, please contact Mary Ann Boyle at:

+1 (734) 677-7777
maryann@HL7.org
**Introduction to Version 2.x: Parts 1 & 2**

**Tuesday, November 4 / 9:00 am – 5:00 pm**

This tutorial introduces students to HL7 and the basic concepts of Version 2. It covers some of the standard’s fundamental chapters including Control, Patient Administration, Order Entry and Results Reporting.

_This Tutorial Will Benefit:_
- Those new to HL7

_Faculty:_
_Mike Henderson_: Principal Consultant, Eastern Informatics

---

**Introduction to Clinical Document Architecture (CDA)**

**Tuesday, November 4 / 9:00 am – 12:30 pm**

The Clinical Document Architecture is HL7’s specification for standards-based exchange of electronic clinical documents. CDA is based on the concept of scalable, incremental interoperability and uses Extensible Markup Language (XML), the HL7 Reference Information Model (RIM) and controlled terminology for structure and semantics. This tutorial presents the business case for CDA, its primary design principles and an overview of the technical specification. The session describes CDA projects in the United States, Europe and Asia/Pacific; the tools available for CDA creation, management and distribution; and the current CDA implementation guides including the Continuity of Care Document (CCD), the History and Physical and other document types under development.

_This Tutorial Will Benefit:_
- Those seeking an overview to terminology in HL7, LOINC and SNOMED in particular

_Upon Completion of This Tutorial, Students Will Know:_
- The basic role and integration of terminologies into HL7 messages
- An understanding of the LOINC and SNOMED systems

_Faculty:_
_W. Ted Klein, MS_: Co-Chair, HL7 Vocabulary Work Group; Ted Klein Consulting Inc.

---

**Clinical Document Architecture (CDA) Advanced**

**Tuesday, November 4 / 1:45 pm – 5:00 pm**

CDA implementation requires understanding the CDA refinement of the RIM (the CDA RMIM), the Version 3 data types, and how these combine with controlled vocabularies to form “clinical statements.” This tutorial reviews the principles of semantic interoperability and how these are reflected in the CDA model and implemented in the CDA schema. It also reviews the CDA RMIM, schema and data types. In addition, the tutorial gives a detailed walkthrough of samples of CDA documents, coded using clinical statements.
This Tutorial Will Benefit:
- Those needing to learn more about CDA, Release 2, its derivation from the RIM, and issues relevant to implementing CDA 2.0 solutions
- Implementers needing to work with CDA, and wanting a review of the details

Upon Completion of This Tutorial, Students Will:
- Have an overview of CDA's components
- Have insight into the XML markup required to implement solutions
- Have a better understanding of the issues surrounding semantic interoperability using CDA

Prerequisites:
- Completion of the Introduction to the Clinical Document Architecture (CDA) tutorial recommended, but not required
- Basic knowledge of the Version 3 standards (as can be obtained from the Introduction to Version 3 tutorial series)

Faculty:
Calvin Beebe: Co-Chair, HL7 Structured Documents Work Group; Co-Editor, CDA; Technical Specialist, Information Services, Mayo Clinic - Rochester, MN

Introduction to Version 3:
Parts 1 & 2
Wednesday, November 5 / 9:00 am – 5:00 pm

This class provides a general overview and introduces fundamental concepts required to understand Health Level Seven's newly emerging Version 3 family of standards.

Included In the Class Is:
- The general rationale for Version 3
- Overview of Version 3's two key concepts—messaging and documents (CDA).
- Overview of the Version 3 publication (ballot and standard)
- Essential concepts and terminology necessary to understand the static models of Version 3 used by all Version 3 objects (messages, documents, etc.)
- Introduction to the Version 3 dynamic model for message interactions
- How a simple message is wrapped for transmission

A walkthrough of a simple example will be provided. The latest Version 3 ballot publication can be accessed and downloaded from: http://www.hl7.org/v3ballot/html/welcome/introduction/index.htm.

Application of Vocabulary
Tuesday, November 4 / 1:45 pm – 5:00 pm

This Tutorial Will Cover the Following Topics:
- The need for using standard coded terminologies in HL7 messages
- Why the Vocabulary Work Group was created and its current role and mission within HL7
- A brief summary of Version 2.x terminology strategy
- An overview of the Version 3 coded data types
- How coded terminologies are represented in Version messages
- How to register terminologies for use in HL7 messages
- A brief overview of knowledge systems and terminology ontologies
- A brief summary of the purpose of the Common Terminology Services specification

This Tutorial Will Benefit:
- People who want to participate in the work of the Vocabulary Work Group, and people who are planning to implement Version 3 messages

Upon Completion of This Tutorial, Students Will Know:
- The history of the Vocabulary Work Group
- How to look up codes in the Version 2 tables
- How coded data is represented in Version 3 messages
- How to register a terminology for use in HL7 messages
- Who to ask if they have questions

Prerequisites:
- Introduction to Vocabulary

Faculty:
W. Ted Klein, MS: Co-Chair, HL7 Vocabulary Work Group; Ted Klein Consulting Inc.
This Tutorial Will Benefit:
• Anyone interested in Version 3 implementation or standards development
• Anyone interested in more advanced Version 3 classes on messaging and CDA

Upon Completion of This Tutorial, Students Will Have Obtained the Following:
• General understanding of the purpose, function, and format of Version 3 messaging and documents
• Proficiency in Version 3 terminology including the RIM, RMIM, and all messaging components
• Knowledge of scope, contents, and organization of the Version 3 publications

Prerequisites:
• Experience with healthcare interfacing would be helpful
• Experience or training with systems (development, integration, and/or implementation) required
• It is assumed that the student has some familiarity with the HL7 organization and its processes (balloting procedures, etc.)

Faculty:
Virginia Lorenzi: NewYork-Presbyterian Hospital; Associate, Department of Biomedical Informatics, Columbia University

Version 2.5 Control Specialist Certification Review
Wednesday, November 5 / 9:00 am – 12:30 pm

This tutorial reviews the message definition and processing rules and data type definitions of the Control chapters of the HL7 Version 2.5 Standard. Upon completion of this tutorial, students will be better prepared to take the HL7 Version 2.5 Control Specialist Certification Exam. Note that students are also expected to prepare for the exam by previous study of Chapter 2 (Control) and Chapter 2A (Data Types) of the HL7 Version 2.5 Standard.

This Tutorial Will Benefit:
• Anyone preparing for the HL7 Control Specialist Certification Exam
• Interface analyst specialists and managers who need to understand the technical aspects of HL7 interfaces

Faculty:
Mike Henderson: Principal Consultant, Eastern Informatics

CDA Specialist Certification Review
Wednesday, November 5 / 9:00 am – 12:30 pm

Upon completion of this tutorial, students will be better prepared to take the CDA Certification Exam.

This Tutorial Will Benefit:
• Anyone preparing for the CDA Certification Exam
• System analysts or clinical application developers wanting in-depth understanding of the CDA Release 2 Standard

Prerequisites:
• Participants are encouraged to carefully read the CDA Release 2 Standard
• Introduction to Version 3 (Part 1) as well as the CDA Introductory and Advanced tutorials are strongly recommended

Faculty:
Calvin Beebe: Co-Chair, HL7 Structured Documents Work Group; Co-Editor, CDA; Technical Specialist, Information Services, Mayo Clinic - Rochester, MN

Version 2 Message Profiles and Conformance
Wednesday, November 5 / 1:45 pm – 5:00 pm

This course is designed to explore the concept of conformance within HL7 Version 2 as described in Chapter 2 of Version 2.5. Additionally, this tutorial will demonstrate how we can apply message profiling to interoperability by improving clarity, simplifying implementations and streamlining testing.

Participants will be introduced to tools that facilitate analysis and interoperability while, at the same time, fully documenting HL7 conformance.

This Tutorial Will Benefit:
• Anyone interested in HL7 interoperability

Upon Completion of This Tutorial, Students Will Know:
• How to measure conformance using messaging profiling
• How vendors can document their applications’ implementations
• How providers can improve their RFP results by using message profiling

Faculty:
Calvin Beebe: Co-Chair, HL7 Structured Documents Work Group; Co-Editor, CDA; Technical Specialist, Information Services, Mayo Clinic - Rochester, MN
• How to use message profiles developed for specific domains
• The tools available to facilitate HL7 Version 2.x conformance efforts (Messaging Workbench and the Global Profile Library)
• More about HL7 conformance certification
• How to develop HL7 conformance documentation for Version 2

Prerequisites:
• Working knowledge of HL7 or other EDI standards (ASTM, X12)

Faculty:
Mike Henderson: Principal Consultant, Eastern Informatics

Continuity of Care Document (CCD)
Wednesday, November 5 / 1:45 pm – 5:00 pm

This tutorial will cover the HL7 Continuity of Care Document. It will describe the Level 3 entries and related CDA specifications, including the ANSI/HITSP Consumer Empowerment Registration and Medication Summary, IHE Profiles making use of the CCD, and other HL7 specifications making use of CCD constructs (e.g., CDA for Common Document Types (CDA4CDT)).

This Tutorial Will Benefit:
• Implementers of the CCD specification or related specifications will benefit by understanding how to read the CCD specification and related specifications

Upon Completion of This Tutorial, Students Will Know:
• How to implement the CCD

Prerequisites:
• CDA Intro and Advanced

Faculty:
Keith W. Boone: Co-Chair, Structured Documents Work Group; Interoperability Architect, GE Healthcare

W10

W11 HL7 Version 2.5 Certification Exam
Wednesday, November 5 / 5:15 pm – 7:15 pm

Health Level Seven is pleased to offer certification testing on HL7 Version 2.5, Chapter 2: Control. Certification testing is offered to those industry participants who are expected to have a working knowledge of the HL7 Messaging Standard. Interface analysts, healthcare systems analysts, medical software programmers, and medical informatics faculty and students are all potential candidates. The knowledge required to pass the exam can be obtained by participation in the HL7 working group meetings, by attending HL7 education sessions, by field work dealing with HL7
interfaces, or simply by self-study of Chapter 2 and 2A of the HL7 Standard Version 2.5 (the standard may be obtained via HL7 membership or non-member purchase on www.HL7.org).

Note: Simply taking the courses offered at this summit will most likely not be sufficient to pass the test. We strongly recommend a combination of the aforementioned to fully prepare yourself for the exam.

**W12 HL7 CDA Specialist Certification Exam**

Wednesday, November 5 / 5:15 pm – 7:15 pm

Health Level Seven is pleased to offer certification testing on HL7 CDA Release 2.

Certification testing is offered to those participants who want to demonstrate that they have a working knowledge of the CDA Release 2 Standard. Healthcare systems analysts, medical software programmers, and medical informatics faculty and students are all potential candidates.

The knowledge required to pass the exam can be obtained by attending HL7 education sessions, by field work dealing with HL7 CDA based applications, or simply by self-study of the HL7 CDA Release 2 Standard. Please refer to the Study Guide on the HL7 Training and Certification page of the HL7 website for details on the content covered by the test.

Note: Simply taking the courses offered at this summit will most likely not be sufficient to pass the test. We strongly recommend a combination of the aforementioned to fully prepare yourself for the exam.

**W13 HL7 Version 3 RIM Certification Exam**

Wednesday, November 5 / 5:15 pm – 7:15 pm

Health Level Seven is pleased to offer certification testing on the HL7 Version 3 Reference Information Model (RIM) 2.11 (the version of the RIM on Version 3 Normative Edition 2006). Note that the RIM is the foundational base of all Version 3 artifacts. Certification testing is offered to those industry participants who are expected to have a working knowledge of the HL7 Version 3 RIM or its derived artifacts. Interface analysts, healthcare systems analysts, medical software programmers, and medical informatics faculty and students are all potential candidates.

The knowledge required to pass the exam can be obtained by self study of the RIM and its associated normative structural vocabulary as well as through participation in the HL7 working group meetings, HL7 education sessions, and field work implementing HL7 Version 3 artifacts. Please refer to the Study Guide on the HL7 Training and Certification page of the HL7 website for details on the content covered by the test.

Note: Simply taking the courses offered at this summit will most likely not be sufficient to pass the test. We strongly recommend a combination of the aforementioned to fully prepare yourself for the exam.

**Don’t miss the HOTEL RECEPTION — every evening — 5:30 – 7:30 IN THE ATRIUM**

**TH14 Electronic Health Record (EHR)**

Thursday, November 6 / 9:00 am – 12:30 pm

This informative tutorial and review provides an in-depth look at the 2007 ANSI EHR-System Functional Model, Release 1, which includes conformance criteria, along with background information including an overview of other EHR standards initiatives. The tutorial will also include related industry background information including a briefing on the standards initiatives of the Certification Commission for Healthcare Information Technology (CCHIT) and the Healthcare Information Technology Standards Panel (HITSP), as well as the status of on-going EHR Work Group projects like PHR, Glossary, Profiles and Interoperability Model.
This Tutorial Will Benefit:
• Those seeking information on functionality and standardization of electronic health records
• This tutorial focuses on EHR-S functionality and will be helpful for those looking to implement EHR systems, those wishing to evaluate EHR systems, or those that have an interest in garnering a bit or EHR-S industry background information

Upon Completion of This Tutorial, Students Will Know:
• Background and status of the EHR-S Functional Model as ANSI standard
• Options to use the functional model for conformance and care setting profiles
• Background and status on HL7 and industry projects supporting EHR standards

Note: This tutorial focuses on functionality, not interoperability. While interoperability is a component of functionality, this tutorial is primarily focused on core functionality and not systems integration. The EHR-S FM is a functional standard, not a records/data standard.

Faculty:
Corey Spears: Co-Chair, HL7 Electronic Health Record Work Group; Interoperability Product Manager/Architect, McKesson, Practice Partner

Version 3 Messaging Implementation Analysis and Specification

Thursday, November 6 / 9:00 am – 12:30 pm

The use of HL7 Version 3 to implement interfaces within a particular application context can have hidden complexities. While Version 3 has been designed to reduce the amount of required site-specific negotiation, it is not possible to simply pull the message specification(s) “out of the box” and install it. This tutorial guides the student through the analysis process, and addresses issues necessary for building robust interface solutions.

This Tutorial Covers:
• Documentation of message specifications
• Implementation considerations for data types
• Managing vocabulary from the implementation perspective
• Procedures to address refinement and localization of the standard

• Tips and strategies for successful implementation
This class also provides a lead-in for Version 3 Implementation Part 2: Implementation Mechanics.

This Tutorial Will Benefit:
• Analysts and architects who need to map HL7 Version 3 messages to or between computer applications
• Project managers responsible for Version 3 implementation projects
• Anyone considering Version 3 early adoption

Upon Completion of This Tutorial, Students Will Know:
• How to develop and carry out a plan for creating Version 3 interfaces
• How to read and write Version 3 message specifications
• How to design tips and strategies

Prerequisites:
• A basic understanding of Version 3 is a requirement (such as the Introduction to Version 3 Tutorials). More advanced tutorials (XML ITS and Wrappers) are encouraged as well. Previous experience in Version 2 implementations will be of value

Faculty:
Mead Walker: Member, HL7 Architectural review Board; Health Data and Interoperability, Inc.

HITSP: Building Interoperability Through the Use of HL7 Standards

Thursday, November 6 / 9:00 am – 12:30 pm

In 2004, President George W. Bush called for the widespread adoption and implementation of interoperable electronic health records throughout the United States within 10 years. To help accomplish this goal, the Healthcare Information Technology Standards Panel (HITSP) was formed. The Panel’s work consists of harmonizing and integrating standards that will meet clinical and business needs for sharing information among organizations and systems and then publishing these results in the form of interoperability specifications. HL7 standards play a key role in this effort since most of the interoperability specifications use one or more HL7 standards.
Purpose:
• Provide an overview of HITSP and its products
• Discuss the HL7 standards being used across various HITSP interoperability specifications
• Review the upcoming HITSP agenda and expected new use cases for 2009

This Tutorial Will Benefit:
• Anyone interested in developing or implementing HITSP interoperability specifications
• Anyone interested in developing or implementing HL7 standards for use in the United States
• Anyone interested in the United States’ solution to interoperability standards harmonization and integration

Upon Completion of This Tutorial, Students Will Know:
• HITSP interoperability specification for existing use cases
• HITSP interoperability specifications for new use cases
• How HL7 standards are used in HITSP interoperability specifications and constructs
• What are the gaps that exist in the HITSP interoperability specifications related to HL7 and how they can be addressed

Faculty:
Walter G. Suarez, MD, MPH: President and CEO, Institute for HIPAA/HIT Education and Research; Member, Board of Directors of HITSP; Co-Chair, HITSP Security, Privacy and Infrastructure Technical Committee; Co-Chair, HITSP Education, Communication and Outreach Committee
MEETING REGISTRATION FORM

FAX: You may fax registration & credit card information to: +1 (734) 677-6622

You will receive a confirmation of registration by mail. If you do not receive confirmation within two weeks, please contact Mary Ann Boyle at +1 (734) 677-7777. Please bring your confirmation materials to the meeting with you.

MAIL: Please mail the completed registration form to:
Health Level Seven
3300 Washtenaw Ave., Suite #227
Ann Arbor, MI 48104, USA

Register Online: www.HL7.org

EARLY BIRD prices are reflected in RED below. EARLY BIRD registrations with payment must reach us by the end of the day, ET on October 7, 2008. Advance registration must be received with payment by the end of the day, ET on October 24, 2008. After this date, registrations must be made and paid for ON-SITE ONLY. The registration fee includes a buffet lunch and two refreshment breaks each day.

Salt Lake City, Utah
A friendly city with diverse attractions—you’ll feel welcome in Salt Lake

Salt Lake began reinventing itself over the past decade. It is many different things: the headquarters of a major world religion, the base camp for unmatched skiing and mountain recreation, and host site for the 2002 Olympic Winter Games.

Visit and you’ll find a surprisingly cosmopolitan city with more than its share of things to see and do. You can enjoy the animal antics and winged wonders at the zoo or aviary. Hop aboard a sunset dinner cruise on the Great Salt Lake, or take in a concert by the world-famous Mormon Tabernacle Choir. Or visit one of fifteen national parks and monuments, all within a day’s drive. Add some educational experiences to your Salt Lake trip with excursions to Dinosaur museums, art galleries, or world-class ballet, opera, and symphony performances. The Salt Lake Valley offers plenty of possibilities for terrific shopping excursions, including malls, shopping villages, specialty boutiques, antique and collectible shops, outdoor shopping and entertainment destinations, and much more.

The city and its nearby canyons tempt diners with an appetizing selection of restaurants, populated by world-traveled chefs (recently termed the “Great Salt Lake Chef Migration”) cooking local and regional ingredients and serving them with award-winning wine lists. If you crave something exotic, you’ll find a delightful ethnic mix available, from Afghan to Vietnamese.

Utah is truly nature’s playground—and Salt Lake is the perfect base camp. Enjoy hiking or mountain biking in local canyons just minutes from the city center or in nearby national parks. Explore lush forests on horseback or journey aloft in a hot-air balloon. Sit back and enjoy an aerial tour of nearby canyons or North America’s saltiest lake. Or, stay in town for a round of golf or any number of professional sporting events.

If you have time, don’t miss the Family History Library. You’ll find millions of family history records at your fingertips, along with knowledgeable and experienced ancestry specialists and foreign language assistance to help translate records—all in one central location.
