IMPLEMENTATION WORKSHOP:

HL7 & Meaningful Use

Get Hands-On with Version 2 or Clinical Document Architecture

November 5–7, 2013

Embassy Suites
Philadelphia Airport
9000 Bartram Avenue
Philadelphia, PA, 19153

Hotel Cutoff is October 14, 2013
Early Bird Registration Cutoff is October 21, 2013
Online Registration Cutoff is October 28, 2013

Gain In-Depth HL7 Knowledge & Certification
Straight from the Source
HL7 is the Sole Source for HL7 Certification Testing!
See inside for details.

What is an Implementation Workshop?

An HL7 Implementation Workshop is a three-day educational event where live hands-on workshops, specially selected by the HL7 Education Work Group, are taught to those interested in learning more about and implementing the HL7 standards and related work products. The workshops allow attendees to get in-depth hands on training in addition to presentation style tutorials. These workshops focus on HL7 specific topics such as Version 2, Version 3, and Clinical Document Architecture (CDA*).

Why should I attend?

This is an invaluable educational opportunity for members of the healthcare IT community who want to learn how to implement the standards as we strive for greater interoperability among healthcare information systems. Our workshops offer a wealth of information designed to benefit a wide range of HL7 users, from beginner to advanced. You’ll take away valuable HL7 knowledge and skills that you’ll be able to apply immediately in the real world.

Among the benefits of attending the HL7 Implementation Workshop are:

Location

Philadelphia, PA – The Embassy Suites Philadelphia Airport Hotel is less than one mile from the Philadelphia Airport (PHL). This hotel at the Philadelphia airport is four miles from sports venues such as Citizens Bank Park, home of the Phillies; Lincoln Financial Field, home of the Eagles; and the Wells Fargo Center, home of the Sixers and Flyers. Just 10 minutes from the Philadelphia Union and Harrah’s Chester Casino in PPL Park, this hotel is also close to popular attractions including Penn’s Landing, Simeone Automotive Museum, Xfinity Center, John Heinz Wildlife Refuge and Camden Aquarium. Take advantage of the Septa R1-Eastwick Station for easy access to downtown Philadelphia from this Philadelphia airport hotel.

Efficiency

Our concentrated format provides maximum training with minimal time investment.

Quality

Our high-quality training in a small classroom setting promotes more one-on-one learning.

Expert Instructors

You’ll get HL7 training straight from the source. Our instructors are not only HL7 experts—they are the people who help produce the HL7 standards.

Certification Testing

Become HL7 Certified. HL7 is the sole source for HL7 certification testing—now offering testing on Version 2.7, Clinical Document Architecture (CDA) and Version 3 Reference Information Model (RIM).

Economical

Implementation workshops offer an economical alternative for companies who want the benefits of HL7’s on-site training but have fewer employees to train.
General Information

Cancellation/Refund Policy
Prepaid registrants who cancel prior to October 21, 2013 will receive a full refund minus a $50 processing fee. After that date, no refunds will be given. Tutorials that do not meet minimum attendance requirements may be cancelled. In this event, registrants may attend an alternate tutorial of their choosing or request a refund for the cancelled tutorial only.

Hotel
The implementation workshop will be held at the Embassy Suites Philadelphia Airport, 9000 Bartram Avenue, Philadelphia, PA, 19153. To reserve your room, please call the hotel directly at +1 (215) 365-4500 or go online at http://embassysuites.hilton.com/en/es/groups/personalized/P/PHLAPES-HL7-20131104/index.jhtml and enter the group code HL7 to apply our room rates. Be sure to mention you are with the Health Level Seven International room block if you call. The special HL7 rate is $159 plus tax per night. You must register by end of day ET on Monday, October 14, 2013 to receive this rate.

Ground Transportation and Parking
The Philadelphia International Airport (PHL) is 1 mile from the airport. The hotel has a free shuttle to and from the airport. Self parking at the hotel is $7 maximum per day with in/out privileges.

Meals
A continental breakfast and buffet lunch is included with each day’s tutorial registration fee. Lunch is from 12:30 pm to 1:30 pm each day. Refreshment breaks will also be provided each day at 10:30 am and 3:00 pm.

How Do I Register?

Mail
Please complete the registration form on the inside of this brochure and mail it (along with credit card information or a check payable to Health Level Seven International in US funds drawn on a US bank ONLY) to the following address:

Health Level Seven International
3300 Washtenaw Ave. Suite #227
Ann Arbor, MI 48104 USA

Fax
You may fax registration and credit card information to:
+1 (734) 677-6622.

Register Online
Online registration is available until the end of the day E.T. on October 28, 2013 at www.HL7.org. For your convenience, you can pay via credit card directly on the website, or print the registration form and mail it with payment.

Early Bird Registration
Registrations and payment must reach us by the end of the day E.T. on October 21, 2013 to receive the special Early Bird rate. Please see the registration form on the inside back page.

Advance Registration/Payment
Advance registrations MUST include payment. Registrations received without payment will not be processed until the time that payment is received.

On-Site Registration
On-site registrations will be accepted November 5-7, 2013. Payment in full is required at the time of registration.

For more information, please contact Mary Ann Boyle at: +1 (734) 677-7777 ext. 141 or maryann@HL7.org
### Schedule at a Glance

#### HL7 Version 2.x & Meaningful Use Track
**Tuesday, November 5 • 8:30 am – 5:30 pm**

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>

HL7 and Meaningful Use
The US Federal Regulations require that certified EHRs utilizing specified health information technology (HIT) standards be used when satisfying meaningful use criteria to receive Medicare and/or Medicaid incentives and avoid penalties. Healthcare interoperability is viewed as a critical part of meaningful HIT, allowing for information sharing across the continuum of care. Several HL7 standards and implementation guides as well as related vocabulary standards are referenced in the standards regulation to support EHR healthcare interoperability functions. This workshop has been designed by the HL7 Education Work Group for those interested in learning more about implementing HL7 in the context of Meaningful Use.

HL7 Version 2.x and Meaningful Use Track
Tuesday – Wednesday, November 5-6 / 8:30 am – 5:30 pm

HL7 Version 2 appears in the Stage 1 regulations as a means for facilitating the communication of immunizations and other public health data. While not specified in the initial rule, it is the de facto standard for communication of lab results, clinical orders, and patient demographics — all necessary elements in the meaningful use of health information technology.

This Track Will Benefit:
• Those having limited or no experience with HL7 or those new to HL7 who need to implement HL7 Version 2.x messaging for Meaningful Use rules compliance

Upon Completion of This Track, Students Will Know:
HL7 Version 2.x Base Standards
• What is HL7?
• Paradigms: messages, documents, services. Profiles, transport, content, and vocabulary
• Basic concepts: messages, documents, services, transport, content, and vocabulary
• HL7 Version 2.x main chapters: admission, observations, and orders
• Which message to use and when
• HL7 Version 2.x messages from the inside out: data types, fields, and segments
• Version 2 implementation guides
• Need for implementation guides and what comprises an implementation guide
• Implementation guide examples and how to create an implementation guide

HL7 Version 2.x and Meaningful Use
• Meaningful use requirements (short/long term) related to HL7 Version 2.x standards
• HL7 guides for reportable laboratory results and immunization messages: use cases, message types, vocabulary, caveats
• HL7, Meaningful Use and vocabularies

Faculty:
Virginia Lorenzi: Manager, HIT Standards and Collaborations, New-York Presbyterian Hospital; Associate, Department of Biomedical Informatics, Columbia University

HL7 CDA® Release 2 and Meaningful Use Track
Tuesday – Wednesday, November 5-6 / 8:30 am – 5:30 pm

The HL7 C-CDA®, an implementation guide of the Clinical Document Architecture, was referenced for data portability, transitions of care, view download and transmit to 3rd parties and clinical summary requirements for meaningful use stage 2 certification. The focus of the course will be to provide hands-on experience with CDA, enabling participants working in small teams to create CDA document instances, starting with simple examples, and working towards creation of full C-CDA documents. The sessions will review concepts related to interoperability, provide an overview the CDA standard including its data types, header elements, narrative constructs, and reference the constraint specifications in the C-CDA implementation guide to create conformant C-CDA documents.

This Track Will Benefit:
• Those having limited or no experience with HL7 or those new to HL7 or CDA who need to implement CDA Release 2 documents for Meaningful Use rules compliance

Upon Completion of This Track, Students Will Know:
HL7 CDA Release 2 Base Standards
• What is HL7?
• Paradigms: messages, documents, services
• Basic concepts: Messages, documents, services, transport, content, and vocabulary
• HL7 CDA Release 2 use cases and scenarios
• CDA Release 2 data types
• CDA Release 2 structure: body, header
• Clinical statement: CDA Release 2 entries. CDA Release 2 constraining: implementation guides

HL7 CDA Release 2 and Meaningful Use
• Meaningful use requirements (short/long term) related to CDA Release 2 standards
• CDA templates and C-CDA, including CCD templates
• HL7, Meaningful Use and vocabularies

Faculty:
Calvin Beebe: Co-Chair, HL7 Structure & Semantic Design Steering Division – HL7 Technical Steering Committee; Co-Chair, HL7 Structured Documents Work Group; Co-Editor, CDA; Technical Specialist, Information Services, Mayo Clinic – Rochester, MN

Version 2.7 Control Specialist Certification Test Review
Thursday, November 7 / 9:00 am – 12:30 pm

This tutorial reviews the message definition and processing rules and data type definitions of the Control chapters of the HL7 Version 2.7 standard. Upon completion of this tutorial, students will be better prepared to take the HL7 Version 2.7 Control Specialist Certification Test. Note that students are also expected
to prepare for the test by previous study of Chapter 2 (Control), Chapter 2A (Data Types) and Chapter 2B (Conformance) of the HL7 Version 2.7 standard.

This Tutorial Will Benefit:
• Anyone preparing for the HL7 Control Specialist Certification Test
• Interface analyst specialists and managers who need to understand the technical aspects of HL7 interfaces

Faculty:
Virginia Lorenzi: Manager, HIT Standards and Collaborations, New-York Presbyterian Hospital; Associate, Department of Biomedical Informatics, Columbia University

CDA Specialist Certification Test Review
Thursday, November 7 / 9:00 am – 12:30 pm

Upon completion of this tutorial, students will be better prepared to take the CDA Certification Test.

This Tutorial Will Benefit:
• Anyone preparing for the CDA Certification Test
• System analysts or clinical application developers wanting in-depth understanding of the CDA Release 2 standard

Prerequisites:
• Participants are encouraged to carefully read the CDA Release 2 standard
• Introduction to Version 3 (Part 1) as well as the CDA Introductory and Advanced tutorials are strongly recommended

Faculty:
Calvin Beebe: Co-Chair, HL7 Structure & Semantic Design Steering Division – HL7 Technical Steering Committee; Co-Chair, HL7 Structured Documents Work Group; Co-Editor, CDA; Technical Specialist, Information Services, Mayo Clinic – Rochester, MN

HL7 Version 2.7 Control Specialist Certification Test
Thursday, November 7 / 1:30 pm – 3:30 pm

Health Level Seven is pleased to offer certification testing on HL7 Version 2.7, Chapter 2: Control. Certification testing is offered to those industry participants who expect to have a working knowledge of the HL7 Messaging Standard. Interface analysts, healthcare systems analysts, medical software programmers, and medical informatics faculty and students are all potential candidates. The knowledge required to pass the test can be obtained by participation in the HL7 working group meetings, by attending HL7 education sessions, by field work dealing with HL7 interfaces, or simply by self-study of Chapters 2, 2A and 2B of the HL7 Version 2.7 standard (the standard may be obtained via HL7 membership or non-member purchase on www.HL7.org).

NOTE: Simply taking the courses offered at this workshop will most likely not be sufficient to pass the test. We strongly recommend a combination of the aforementioned to fully prepare yourself for the test.

HL7 CDA Specialist Certification Test
Thursday, November 7 / 1:30 pm – 3:30 pm

Health Level Seven is pleased to offer certification testing on HL7 CDA Release 2. Certification testing is offered to those participants who want to demonstrate that they have a working knowledge of the CDA Release 2 standard. Healthcare systems analysts, medical software programmers, and medical informatics faculty and students are all potential candidates. The knowledge required to pass the test can be obtained by attending HL7 education sessions, by field work dealing with HL7 CDA based applications, or simply by self-study of the HL7 CDA Release 2 Standard. Please refer to the study guide on the HL7 Training and Certification page of the HL7 website for details on the content covered by the test.

NOTE: You will need to bring your laptop to take the exam. We have changed to online certification.

Note: Simply taking the courses offered at this workshop will most likely not be sufficient to pass the test. We strongly recommend a combination of the aforementioned to fully prepare yourself for the test.

HL7 Version 3 RIM Certification Test
Thursday, November 7 / 1:30 pm – 3:30 pm

Health Level Seven is pleased to offer certification testing on the HL7 Version 3 Reference Information Model (RIM) 2.36. Note that the RIM is the foundational base of all Version 3 artifacts. Certification testing is offered to those industry participants who expect to have a working knowledge of the HL7 Version 3 RIM or its derived artifacts. Interface analysts, healthcare systems analysts, medical software programmers, and medical informatics faculty and students are all potential candidates.

The knowledge required to pass the test can be obtained by self study of the RIM and its associated normative structural vocabulary as well as through participation in the HL7 working group meetings, HL7 education sessions, and field work implementing HL7 Version 3 artifacts. Please refer to the Study Guide on the HL7 Training and Certification page of the HL7 website for details on the content covered by the test.

NOTE: You will need to bring your laptop to take the exam. We have changed to online certification.

Note: Simply taking the courses offered at this workshop will most likely not be sufficient to pass the test. We strongly recommend a combination of the aforementioned to fully prepare yourself for the test.
EARLY BIRD prices are reflected in RED below. EARLY BIRD registrations with payment must reach us by the end of the day, E.T. on October 21, 2013. Advance registration must be received with payment by the end of the day, E.T. on October 28, 2013. After this date, registrations must be made and paid for ON-SITE ONLY. The registration fee includes a buffet lunch and two refreshment breaks each day.

Known as the birthplace of the American government, Philadelphia is the fifth largest city in the United States. Philadelphia is a dynamic place where big city excitement meets hometown charm. Historic landmarks and culture abound. Philadelphia is not only the most historic city in America—thanks to a recent renaissance, it now boasts new and unique attractions, world-class performing arts companies, celebrated architecture, a vibrant downtown, and an array of shopping and restaurants.

Philadelphia is frequently associated with the American Revolution. Visitors to the city take a walk through the past in Independence National Historical Park. There they will see the Liberty Bell, the symbol of the nation’s freedom, and Independence Hall, where colonists adopted Thomas Jefferson’s Declaration of Independence. Other historical attractions include the National Constitution Center, the Betsy Ross House and Carpenter’s Hall.

In addition, Philadelphia is home to world-famous museums, including Philadelphia Museum of Art, Rodin Museum, and The Franklin Institute Science Museum. Other compelling attractions include the catching a performance of the Philadelphia Orchestra at the Kimmel Center or the Pennsylvania Ballet at the Academy of Music. Visitors can also catch a game of one of the city’s nine professional sports teams or spend a day downtown shopping and dining out at many of the country’s top restaurants.

With so much history and culture, Philadelphia is truly a destination.
