HL7 FHIR® INSTITUTE & MEANINGFUL USE STANDARDS IMPLEMENTATION WORKSHOP

Choose Your Topic—Version 2, FHIR®, or CDA®

July 13-16, 2015
Embassy Suites Hotel at the Chevy Chase Pavilion
4300 Military Road N.W.
Washington, DC 20015

Early Bird & Hotel Cutoff is June 29, 2015
Online Registration Cutoff is July 6, 2015

Gain In-Depth HL7 Knowledge & Certification Straight from the Source
HL7 is the Sole Source for HL7 Certification Testing! See inside for details.
What is the **HL7 FHIR® Institute**?
The HL7 FHIR® Institute provides resources and training for the next generation standards framework created by HL7: Fast Healthcare Interoperability Resources or FHIR®. The FHIR Institute focuses on helping the industry understand why this standard is so important, its power to change and improve the current interoperability landscape, and on helping students master its implementation. Training at the FHIR Institute includes both face-to-face and virtual events and is targeted at software developers, implementers and executives. Learn about FHIR straight from the source at FHIR® Institute programs delivered by expert FHIR standard developers.

What is an Implementation Workshop?
An HL7 Implementation Workshop is a three-day educational event where live hands-on workshops, specially selected by the HL7 Education Work Group, are taught to those interested in learning more about implementing the HL7 standards and related work products. The workshops allow attendees to get in depth hands on training in addition to presentation style tutorials. These workshops focus on HL7 specific topics such as Version 2, QRDA, Clinical Document Architecture (CDA®) and FHIR.

Why should I attend?
This is an invaluable educational opportunity for members of the healthcare IT community who want to learn how to implement standards as we strive for greater interoperability among healthcare information systems. Our workshops offer a wealth of information designed to benefit a wide range of HL7 users, from beginner to advanced. You’ll take away valuable HL7 knowledge and skills that you’ll be able to apply immediately in the real world.

Among the benefits of attending this program are:

**Location**
**Washington, DC**—The Embassy Suites Hotel at the Chevy Chase Pavilion offers award winning hospitality and exceptional value combining outstanding service with the perfect metro location. Located in the upscale Friendship Heights district in Washington, DC, the hotel is located directly on the Metro Red Line and is in walking distance to the renowned Chevy Chase shopping district. The Embassy Suites Hotel is near Washington, DC's top attractions, including the Smithsonian Institute, the National Zoo, the National Mall, the National Museum of Natural History, the National Aquarium and many more great destinations that are all accessible by taking the Metro.

**Efficiency**
Our concentrated format provides maximum training with minimal time investment.

**Quality**
Our high-quality training in a small classroom setting promotes more one-on-one learning.

**Expert Instructors**
You’ll get HL7 training straight from the source. Our instructors are not only HL7 experts—they are the people who help develop the HL7 standards.

**Certification Testing**
Become HL7 Certified. HL7 is the sole source for HL7 certification testing—now offering testing on Version 2.7, Clinical Document Architecture (CDA) and Version 3 Reference Information Model (RIM). All exams are online. Your laptop MUST have IE installed.

**Economical**
Implementation workshops offer an economical alternative for companies who want the benefits of HL7's on-site training but have fewer employees to train.
Cancellation/Refund Policy
Prepaid registrants who cancel prior to June 29, 2015 will receive a full refund minus a $50 processing fee. After that date, no refunds will be given. Tutorials that do not meet minimum attendance requirements may be cancelled. In this event, registrants may attend an alternate tutorial of their choosing or request a refund for the cancelled tutorial only.

Hotel
This event will be held at the Embassy Suites Hotel at the Chevy Chase Pavilion, 4300 Military Road N.W., Washington, DC 20015. To reserve your room, please call the hotel directly at +1 (202) 362-9300, or toll free at +1 (888) 324-2728 or go online at www.embassysuitesdc.com and enter the group code HLS to apply our room rates. Be sure to mention you are with the Health Level Seven International room if you call. The special HL7 rate is $209 plus tax per night. You must register by end of day ET on Monday, June 29, 2015 to receive this rate.

Ground Transportation and Parking
Ronald Reagan Washington National Airport is nine miles from the hotel. Transportation options include the Metro (WMATA) for $2.40 (approximately 35 minutes), or taxi (approximately $30). Washington Dulles International Airport is 25 miles from the hotel. Transportation options to the hotel include the Metro (WMATA) for $7.85 (start on a bus and have to walk a short distance to the Metro Station, with a total travel time of approximately one hour and 15 minutes), or taxi (approximately $50). For Metro information, please visit www.wmata.com. Self Parking at the hotel is $26 maximum per day with in/out privileges.

Meals
A continental breakfast and buffet lunch is included with each day’s tutorial registration fee. Lunch is from 12:30 pm to 1:30 pm each day. Refreshment breaks will also be provided each day at 10:30 am and 3:00 pm. A networking reception will be held Tuesday evening after class.

How Do I Register?

Mail
Please complete the registration form on the inside of this brochure and mail it (along with credit card information or a check payable to Health Level Seven International in US funds drawn on a US bank ONLY) to the following address:
Health Level Seven International
3300 Washtenaw Ave, Suite #227
Ann Arbor, MI 48104 USA

Fax
You may fax registration and credit card information to: +1 (734) 677-6622.

Register Online
Online registration is available until the end of the day ET on July 6, 2015 at www.HL7.org. For your convenience, you can pay via credit card directly on the website, or print the registration form and mail it with payment.

Early Bird Registration
Registrations and payment must reach us by the end of the day ET on June 29, 2015 to receive the special Early Bird rate. Please see the registration form on the inside back page.

Advance Registration/Payment
Advance registrations MUST include payment. Registrations received without payment will not be processed until payment is received.

On-Site Registration
On-site registrations will be accepted July 13-16, 2015. Payment in full is required at the time of registration.

For more information, please contact Mary Ann Boyle at: +1 (734) 677-7777 ext. 141 or maryann@HL7.org
About FHIR
Designed with a focus on simplicity and ease of implementation, the Fast Healthcare Interoperability Resources (FHIR®) standard is an exciting new addition to the HL7 standards platform. FHIR combines the best features of HL7 standards with the latest web technologies to make interoperable healthcare applications dramatically simpler, easier, and faster to develop. For applications based on earlier HL7 standards, FHIR offers a cost-effective evolutionary path.

FHIR solutions are built from a set of modular components called “Resources”. These resources can easily be assembled into working systems that solve real world clinical and administrative problems at a fraction of the price of existing alternatives. FHIR is suitable for use in a wide variety of contexts – mobile phone apps, cloud communications, EHR-based data sharing, server communication in large institutional healthcare providers, and much more.

FHIR Certificate of Completion
The FHIR Institute consists of two tracks: Executive and Hands-On. Courses are designed for all stakeholder groups to gain knowledge, skill and practice with FHIR, based on their particular needs. To earn a FHIR Institute Certificate of Completion, students must attend all courses within their track as specified in the course list.

The Executive track courses provide a high level overview about what FHIR is, why it’s important, its impact on current and future policy and practical examples. In addition to this information, the Hands-On track gives the technical foundations for architects and implementers along with how to develop FHIR profiles.

HL7 FHIR® Institute

Schedule at a Glance

FHIR Executive Track
Monday, July 13 / 9:00 am - 5:00 pm

9:00 – 12:30 pm  HL7 FHIR for Executives
1:45 – 5:00 pm  FHIR Architectural Approaches

Hands-On Track: FHIR Implementation Workshop (2 day event)
Tuesday, July 14 / 8:30 am – 5:30 pm

Presentation:  Introduction
Exercise:  Solving problems with FHIR
Break

Presentation:  Drilling into resources
Exercise:  Craft a resource instance
Lunch

Presentation:  RESTful FHIR
Exercise:  CRUD operations with FHIR
Break

Presentation:  Searching with FHIR
Exercise:  Perform FHIR queries

Wednesday, July 15 / 8:30 am – 5:30 pm

Presentation:  FHIR messages and documents
Exercise:  Create a FHIR document
Break

Presentation:  Advanced FHIR and architectural approaches
Lunch

Presentation:  Profiles and conformance
Exercise:  Define a FHIR profile (with extensions)
Break

Presentation:  Implementing FHIR
Exercise:  Build a simple FHIR client (using libraries)
FHIR EXECUTIVE TRACK

HL7 FHIR® for Executives
Monday, July 13 / 9:00 am – 12:30 pm

FHIR is the newest interoperability platform from HL7, building on the strengths of Version 2 and the Clinical Document Architecture (CDA®), while supporting modern interchange technologies and significantly easing implementation. Topics covered include the following:
• Why FHIR?
• What’s different about FHIR?
• Relationship with Version 2, Version 3 and CDA
• Business cases for FHIR adoption
• Status and future plans
• Risks and mitigations

This Tutorial Will Benefit:
• Managers and executives

Upon Completion of This Track, Students Will Know:
• What FHIR is
• How FHIR can be used without getting bogged down in the technical details

Faculty:
Lloyd McKenzie: Co-Chair, FHIR Management Group; Co-Chair, HL7 Modeling & Methodology Work Group; Member, FHIR Editorial Team; Industry Lead, Health Integration Standards, Gevity

FHIR HANDS-ON TRACK

FHIR Implementation Workshop
Tuesday – Wednesday, July 14-15 / 8:30 am – 5:30 pm

This workshop includes a mixture of interactive presentations and hands-on exercises that will bring implementers and decision makers up to speed on the rapidly evolving standard. Attendees will walk away from this workshop ready to use the standard in their own workplace environments.

This Track Will Benefit:
• Those who will be directly implementing FHIR interfaces as well as architects and project leads who will be making decisions about where/how FHIR might be used within an organization

Upon Completion of This Track, Students Will Know:
• What is HL7 FHIR?
• How do I navigate the FHIR specification?
• How does FHIR compare to other HL7 standards (Version 2, Version 3, CDA, etc.)?
• What are the target implementation environments for FHIR?
• What are resources and how are they structured?
• How can FHIR's RESTful interface be used to manage and query resources?
• How are the document, messaging and services paradigms supported by FHIR?
• Advanced FHIR topics such as contained resources, order/order response, operation outcome, etc.
• What are some of the architectural strategies that can be used for FHIR solutions?
• How can the FHIR libraries be used to jump-start the development of FHIR applications?

Prerequisites:
• Familiarity with XML or JSON and some background in software development is recommended (Hands-on exercises will be easier if attendees have an XML or JSON editing environment)

Faculty:
Lloyd McKenzie: Co-Chair, FHIR Management Group; Co-Chair, HL7 Modeling & Methodology Work Group; Member, FHIR Editorial Team; Industry Lead, Health Integration Standards, Gevity

HL7 FHIR® Architectural Approaches
Monday, July 13 / 1:45 pm – 5:00 pm

FHIR is attracting a great deal of attention as the next “great thing” in healthcare interoperability. This course will help participants understand where and how FHIR might fit into their healthcare interoperability environment and give them the tools they need to make judgments about when or if FHIR might be an appropriate solution for their healthcare IT needs.

This tutorial will include an examination of the REST, document, messaging and services interoperability paradigms. The presentation will also cover other aspects of FHIR that may influence system architecture and design.

This Tutorial Will Benefit:
• CEOs
• CIOs
• Architects
• Development leads
• Anyone who is interested in exploring the various architectural options available to FHIR based interoperability solutions

Upon Completion of This Track, Students Will Be Able To:
• Explain how FHIR may be used in different interoperability paradigms
• Describe how FHIR can fit in different locations in the architectural stack
• Identify architectural considerations that apply to FHIR and determine how best to address those in their own FHIR solutions
Meaningful Use Implementation Workshop

HL7 Version 2.x & Meaningful Use Track
Tuesday, July 14 / 8:30 am – 5:30 pm

Presentation: Introduction to HL7
Exercise: Define key participants and functions in an exchange

Break

Presentation: Introduction to HL7 Version 2.x
Exercise: When to use which chapter of Version 2.x. Hands-on exercises to determine which HL7 Version 2.x trigger event to use for a given use case

Lunch

Presentation: Introduction to HL7 Version 2.X - Structure: Introduction to Chapter 2, including segments, fields and data types
Exercise: Basic HL7 Version 2.X exercise on recognition of segments, fields, etc. in actual messages and how to create HL7 messages

Break

Exercise: Identify misused data types and update an example
Presentation: Meaningful Use and HL7 Version 2.x

HL7 CDA® Release 2 & Meaningful Use Track
Tuesday, July 14 / 8:30 am – 5:30 pm

Presentation: Introduction to HL7
Exercise: When to use which standard

Break

Presentation: What is CDA?
Exercise: Basic CDA exercises

Lunch

Presentation: CDA Data Types
Exercise: How to identify incorrectly used CDA data types and how to make corrections

Break

Presentation: CDA Structure: Body and Header
Exercise: How to create a complete CDA instance with different header elements

Break

Presentation: CDA Structure: Entries
Exercise: How to create basic entries (observations, allergies, problems)
### HL7 Version 2.x & Meaningful Use Track (continued)
Wednesday, July 15 / 8:30 am – 5:30 pm

**Presentation:** HL7 Version 2.x Implementation Guides – Covers key parts of an implementation guide and provides examples

**Presentation:** HL7 Version 2.5.1 for Public Health Reporting

**Break**

**Exercise:** How to build and verify messages based on the HL7 Version 2.5.1 Implementation Guide: Electronic Laboratory Reporting to Public Health, Release 1 (US Realm). This will include providing a detailed scenario and walk through of the steps to build and revise a conformant message for transmitting reportable results to public health

**Lunch**

**Presentation:** HL7 Version 2.5.1 for Immunizations / Centers for Disease Control Implementation Guide

**Break**

**Exercise:** How to build and verify a conformant message for immunization messages with the Version 2.5.1 CDC Implementation Guide

### HL7 CDA® Release 2 & Meaningful Use Track (continued)
Wednesday, July 15 / 8:30 am – 5:30 pm

**Presentation:** Meaningful Use and HL7 CDA

**Presentation:** CDA Templates and the Continuity of Care Document (CCD)

**Break**

**Exercise:** How to create a CCD compliant document

**Lunch**

**Presentation:** What are the C-CDA template constraints?

**Exercise:** How to create a basic C-CDA compliant document

**Break**

**Presentation:** HL7, Meaningful Use and Vocabularies

**Exercise:** Vocabulary overview and search exercise

### Certification Preparation and Test
Thursday, July 16

9:00 am – 12:30 pm  
Version 2.7 Control Specialist Certification Test Review  
CDA Specialist Certification Test Review

1:30 pm – 3:30 pm  
HL7 Version 2.7 Control Specialist Certification Test  
HL7 CDA Specialist Certification Test  
HL7 Version 3 RIM Certification Test
**HL7 and Meaningful Use**
The US Federal Regulations require that certified EHRs utilizing specified health information technology (HIT) standards be used when satisfying meaningful use criteria to receive Medicare and/or Medicaid incentives and avoid penalties. Healthcare interoperability is viewed as a critical part of meaningful HIT, allowing for information sharing across the continuum of care. Several HL7 standards and implementation guides as well as related vocabulary standards are referenced in the standards regulation to support EHR healthcare interoperability functions. This workshop has been designed by the HL7 Education Work Group for those interested in learning more about implementing HL7 in the context of Meaningful Use.

**HL7 Version 2.x and Meaningful Use Track**
Tuesday – Wednesday, July 14-15 / 8:30 am – 5:30 pm

HL7 Version 2 appears in the Stage 1 regulations as a means for facilitating the communication of immunizations and other public health data. While not specified in the initial rule, it is the de facto standard for communication of lab results, clinical orders, and patient demographics — all necessary elements in the meaningful use of health information technology.

**This Track Will Benefit:**
- Those with limited or no experience using HL7 or those new to HL7 who need to implement HL7 Version 2.x messaging for Meaningful Use rules compliance

**Upon Completion of This Track, Students Will Know:**

**HL7 Version 2.x Base Standards**
- What is HL7?
- Paradigms: messages, documents, services
- Profiles, transport, content, and vocabulary
- Basic concepts: messages, documents, services, transport, content, and vocabulary
- HL7 Version 2.x main chapters: admission, observations, and orders
- Which message to use and when
- HL7 Version 2.x messages from the inside out: data types, fields, and segments
- Version 2 implementation guides
- Need for implementation guides and what comprises an implementation guide
- Implementation guide examples and how to create an implementation guide

**HL7 Version 2.x and Meaningful Use**
- Meaningful use requirements (short/long term) related to HL7 Version 2.x standards

**HL7 CDA® Release 2 and Meaningful Use Track**
Tuesday – Wednesday, July 14-15 / 8:30 am – 5:30 pm

The HL7 C-CDA®, an implementation guide of the Clinical Document Architecture, was referenced for data portability, transitions of care, view, download and transmit to third parties, and clinical summary requirements for Meaningful Use certification. The focus of the course is to provide hands on experience with CDA, enabling participants working in small teams, to create CDA document instances, starting with simple examples, and working towards creation of full C-CDA documents. Along the way we will review concepts related to interoperability, overview the CDA standard including its data types, header elements, narrative constructs, and reference the constraint specifications in the C-CDA implementation guide to create conformant C-CDA documents.

**Faculty:**
*Ted Klein, MS, FHL7: Co-Chair, HL7 Vocabulary Work Group; Klein Consulting, Inc.*
This Track Will Benefit:

- Those with limited or no experience using HL7 or those new to HL7 or CDA who need to implement CDA/C-CDA implementation guide documents for Meaningful Use rules compliance

Upon Completion of This Track, Students Will Know:

**HL7 CDA Release 2 Base Standards**
- What is HL7?
- Paradigms: messages, documents, services
- Basic concepts: Messages, documents, services, transport, content, and vocabulary
- HL7 CDA Release 2 use cases and scenarios
- CDA Release 2 data types
- CDA Release 2 structure: body, header
- Clinical statement: CDA Release 2 entries, and CDA Release 2 constraining: implementation guides

**HL7 CDA Release 2 and Meaningful Use**
- Meaningful use requirements (short/long term) related to CDA Release 2 standards
- CDA templates and C-CDA, including CCD templates
- HL7, meaningful use and vocabularies

**Faculty:**
*Calvin Beebe*: Treasurer, HL7 International Board of Directors; Co-Chair, HL7 Structure & Semantic Design Steering Division – HL7 Technical Steering Committee; Co-Chair, HL7 Structured Documents Work Group; Co-Editor, CDA; Technical Specialist, Information Services, Mayo Clinic – Rochester, MN

**Version 2.7 Control Specialist Certification Test Review**
**Thursday, July 16 / 9:00 am – 12:30 pm**

This tutorial reviews the message definition and processing rules and data type definitions of the Control chapters of the HL7 Version 2.7 standard. Upon completion of this tutorial, students will be better prepared to take the HL7 Version 2.7 Control Specialist Certification Test. Note that students are also expected to prepare for the test by previous study of Chapter 2 (Control), Chapter 2A (Data Types) and Chapter 2B (Conformance) of the HL7 Version 2.7 standard.

**This Tutorial Will Benefit:**
- Anyone preparing for the HL7 Control Specialist Certification Test
- Interface analyst specialists and managers who need to understand the technical aspects of HL7 interfaces

**Faculty:**
*Ted Klein, MS, FHL7*: Co-Chair, HL7 Vocabulary Work Group; Klein Consulting

**CDA Specialist Certification Test Review**
**Thursday, July 16 / 9:00 am – 12:30 pm**

Upon completion of this tutorial, students will be better prepared to take the CDA Certification Test.

**This Tutorial Will Benefit:**
- Anyone preparing for the CDA Certification Test
- System analysts or clinical application developers wanting in-depth understanding of the CDA Release 2 standard

**Prerequisites:**
- Participants are encouraged to carefully read the CDA Release 2 standard
- Introduction to Version 3 (Part 1) as well as the CDA Introductory and Advanced tutorials are strongly recommended

**Faculty:**
*Calvin Beebe*: Treasurer, HL7 International Board of Directors; Co-Chair, HL7 Structure & Semantic Design Steering Division – HL7 Technical Steering Committee; Co-Chair, HL7 Structured Documents Work Group; Co-Editor, CDA; Technical Specialist, Information Services, Mayo Clinic – Rochester, MN

To reduce HL7’s carbon footprint, its meetings are now largely paperless. HL7 no longer provides printed tutorial materials on-site. All materials will be distributed electronically to tutorial participants on a flash drive that will be distributed on site. It is important that you bring your laptop to this meeting for all tutorials. Free WiFi internet access will also be provided.
HL7 Version 2.7 Control Specialist Certification Test
Thursday, July 16 / 1:30 pm – 4:00 pm

Health Level Seven is pleased to offer certification testing on HL7 Version 2.7, Chapter 2: Control. Certification testing is offered to those industry participants who are expected to have a working knowledge of the HL7 Messaging Standard. Interface analysts, healthcare systems analysts, medical software programmers, and medical informatics faculty and students are all potential candidates. The knowledge required to pass the test can be obtained by participation in the HL7 working group meetings, by attending HL7 education sessions, by field work dealing with HL7 interfaces, or simply by self-study of Chapters 2, 2A and 2B of the HL7 Version 2.7 standard (the standard may be obtained via the HL7 website at www.HL7.org).

Note: You will need to bring your laptop to take the exam. We have changed to online certification.

Simply taking the courses offered at this workshop will most likely not be sufficient to pass the test. We strongly recommend a combination of the aforementioned to fully prepare yourself for the test.

HL7 CDA Specialist Certification Test
Thursday, July 16 / 1:30 pm – 4:00 pm

Health Level Seven is pleased to offer certification testing on HL7 CDA Release 2. Certification testing is offered to those participants who want to demonstrate that they have a working knowledge of the CDA Release 2 standard. Healthcare systems analysts, medical software programmers, and medical informatics faculty and students are all potential candidates.

The knowledge required to pass the test can be obtained by attending HL7 education sessions, by field work dealing with HL7 CDA based applications, or simply by self-study of the HL7 CDA Release 2 Standard. Please refer to the Study Guide on the HL7 Training and Certification page of the HL7 website for details on the content covered by the test.

Note: You will need to bring your laptop to take the exam. We have changed to online certification.

Simply taking the courses offered at this workshop will most likely not be sufficient to pass the test. We strongly recommend a combination of the aforementioned to fully prepare yourself for the test.

HL7 Version 3 RIM Certification Test
Thursday, July 16 / 1:30 pm – 4:00 pm

Health Level Seven is pleased to offer certification testing on the HL7 Version 3 Reference Information Model (RIM) 2.36. The RIM is the foundational base of all Version 3 artifacts. Certification testing is offered to those industry participants who are expected to have a working knowledge of the HL7 Version 3 RIM or its derived artifacts. Interface analysts, healthcare systems analysts, medical software programmers, and medical informatics faculty and students are all potential candidates.

The knowledge required to pass the test can be obtained by self-study of the RIM and its associated normative structural vocabulary as well as through participation in the HL7 working group meetings, HL7 education sessions, and field work implementing HL7 Version 3 artifacts. Please refer to the Study Guide on the HL7 Training and Certification page of the HL7 website for details on the content covered by the test.

Note: You will need to bring your laptop to take the exam. We have changed to online certification.

Simply taking the courses offered at this workshop will most likely not be sufficient to pass the test. We strongly recommend a combination of the aforementioned to fully prepare yourself for the test.
Meeting Registration Form

EARLY BIRD prices are reflected in RED below. EARLY BIRD registrations with payment must reach us by the end of the day, ET on June 29, 2015. Advance registration must be received with payment by the end of the day, ET on July 6, 2015. After this date, registrations must be made and paid for ON-SITE ONLY. The registration fee includes a buffet lunch and two refreshment breaks each day.

1. Contact Information:

First Name     Last Name     Nickname

Title/Position     Organization     Email

Address

City      State    Zip    Country

Telephone         Fax

2. Registration Fees:
The FHIR tutorials and HL7 certification test review tutorials, and certification testing are not included in the packages and must be registered for separately.

In Washington, DC, you’ll enjoy access to fascinating, FREE attractions and historic sights. Touch a moon rock, marvel at the Hope Diamond, view Dorothy’s Ruby Red slippers or explore Native American culture at the Smithsonian Institution’s fifteen Washington, DC area facilities. Discover treasures like the Gutenberg Bible at the Library of Congress, the only da Vinci painting in North America at the National Gallery of Art and historic documents like the Declaration of Independence at the National Archives.

Away from these celebrated federal sites, Washington, DC unwinds into a fascinating network of neighborhoods where visitors discover trendy boutiques, hip bars and restaurants, plus art galleries, historic homes and lush parks and gardens. Shoppers love the store-lined streets of Georgetown, while jazz music fans won’t want to miss a trip to U Street, where Duke Ellington played his first notes. The city’s international character shines through in its Adams Morgan and Dupont Circle neighborhoods, two prime destinations for eclectic dining and nightlife and the historic center of the city’s embassy community.

The arrival of several new eateries has made the nation’s capital a prime destination for dining out, with many of the city’s top tables located in the downtown Penn Quarter neighborhood. DC is also earning new recognition as a thriving performing arts town, with 65 professional theatre companies based in the metropolitan area presenting edgy world premieres and celebrated Broadway musicals throughout the year.

For more information, visit www.washington.org.
