**HL7 Offers Free Ambassador Webinar—CDA® Release 2 and the CCD®:
Standards for the Meaningful Exchange of Health Information and
Clinical Summaries**

Ann Arbor, Michigan, USA – June 14, 2011 – Health Level Seven® International (HL7®), the global authority for interoperability and standards in healthcare information technology with members in 55 countries, will present a complimentary Ambassador webinar on the HL7 Clinical Document Architecture Release 2.0 (CDA) and the Continuity of Care Document (CCD) on Wednesday, June 22 from 11:00 am – 12:00 noon EDT.

The CDA is designed to support the exchange of health information in clinical documentation and the CCD for creating clinical summaries. These specifications were recently named under the federal regulation in the United States to support meaningful use requirements and have also been selected for use in national and regional programs throughout the world. This webinar will explain how the CDA and CCD benefit patients and healthcare providers. It will also assist managers and decision makers involved in the acquisition or development of healthcare IT solutions to understand the business needs met by these HL7 standards. This webinar will also address the newly published **greenCDA®** Implementation Guide, which maintains the full utility of CDA while making it easier to implement. **greenCDA** is a simplified XML for CDA templates.

Bob Dolin, MD, president and chief medical officer at Lantana Consulting Group, chair of HL7 International, and co-chair of the HL7 Structured Documents Work Group, will be presenting the webinar. Dr. Dolin is a co-editor of both the CDA standard and the CCD implementation guide. Dr. Dolin has also been the co-editor of many CDA-based implementation guides, including the **greenCDA**.

To register for this free webinar, please visit <http://www.hl7.org/events/ambassador062011/>.

HL7 Ambassadors present standardized presentations about HL7 as speaker volunteers.

They are available to present at local, regional or national conferences. Please contact HL7 at +1 (734) 677-7777 if you would like to schedule an HL7 Ambassador for an upcoming event.

About Health Level Seven International (HL7)

Founded in 1987, Health Level Seven International is the global authority for healthcare information interoperability and standards with affiliates established in more than 30 countries. HL7 is a non-profit, ANSI accredited standards development organization dedicated to providing a comprehensive framework and related standards for the exchange, integration, sharing, and retrieval of electronic health information that supports clinical practice and the management, delivery and evaluation of health services. HL7's more than 2,300 members represent approximately 500 corporate members, which include more than 90 percent of the information systems vendors serving healthcare. HL7 collaborates with other standards developers and provider, payer, philanthropic and government agencies at the highest levels to ensure the development of comprehensive and reliable standards and successful interoperability efforts.

HL7's endeavors are sponsored, in part, by the support of its benefactors: Abbott; Accenture; Centers for Disease Control and Prevention; Duke Translational Medicine Institute; Epic; European Medicines Agency; the Food and Drug Administration; GE Healthcare Information Technologies; GlaxoSmithKline; IBM; Intel Corporation; InterSystems Corporation; Kaiser Permanente; Lockheed Martin; McKesson Provider Technology; Microsoft Corporation; NICTIZ National Healthcare; Novartis; Oracle Corporation; Partners HealthCare System, Inc.; Pfizer, Inc.; Philips Healthcare; Quest Diagnostics Inc.; Siemens Healthcare; Thomson Reuters; the U.S. Department of Defense, Military Health System; and the U.S. Department of Veterans Affairs.

Numerous HL7 Affiliates have been established around the globe including Argentina, Australia, Austria, Brazil, Canada, Chile, Colombia, Croatia, Czech Republic, Finland, Germany, Greece, Hong Kong, India, Italy, Japan, Korea, Luxembourg, The Netherlands, New Zealand, Norway, Romania, Russia, Singapore, Spain, Sweden, Switzerland, Taiwan, Turkey, United Kingdom, and Uruguay.
