## **HL7 International Appoints Accenture's Andy Truscott to the Board of Directors**

**ANN ARBOR, MI, USA – February 1, 2018** – Health Level Seven® International (HL7®), the global authority for interoperability in healthcare information technology (IT) with members in 55 countries, today announced the appointment of Andy Truscott, managing director of health technology consulting at Accenture, to the HL7 Board of Directors.

"We are pleased to welcome Andy Truscott to the HL7 Board of Directors," said HL7 CEO Charles Jaffe, MD, PhD. "As a recognized global leader for his expertise and experience in solving complex technology challenges and a member of the ONC's Health Information Technology [Advisory Committee](#), Mr. Truscott will bring strategic and visionary leadership to the Board."

As a globally-recognized leader in health IT, Mr. Truscott is responsible for electronic health information management including interoperability, governance, clinical analytics and data warehousing. He has extensive experience in the creation, development and delivery of multi-year technology initiatives in the areas of security, architecture planning, infrastructure optimization and IT organizational strategy. He has also been responsible for the specification and design of various electronic infrastructure systems.

"I am honored to be appointed to HL7's prestigious board of directors," said Andy Truscott, managing director of health technology consulting, Accenture. "I look forward to contributing to HL7's mission of empowering health data interoperability and supporting the standards needed to help drive industry-wide adoption."

### **About Health Level Seven International (HL7)**

Founded in 1987, [Health Level Seven International](#) is the global authority for healthcare information interoperability and standards with affiliates established in more than 30 countries. HL7 is a non-profit, ANSI accredited standards development organization dedicated to providing a comprehensive framework and related standards for the exchange, integration, sharing, and retrieval of electronic health information that supports clinical practice and the management, delivery and evaluation of health services. HL7's members represent approximately 500 corporate members, which include more than 90 percent of the information systems vendors serving healthcare. HL7 collaborates with other standards developers and

provider, payer, philanthropic and government agencies at the highest levels to ensure the development of comprehensive and reliable standards and successful interoperability efforts.
