September 11, 2018

Dear HL7 Member,

The Clinical Quality Information Work Group has asked me to forward you a set of recommended corrections and modifications to the currently published “**HL7 Version 3 Implementation Guide: Clinical Quality Language (CQL)-based Health Quality Measure Format (HQMF), Release 1 - US Realm (PI ID: 1142) STU 3**”. The referenced document can be found on the http://www.hl7.org/implement/standards/product_brief.cfm?product_id=405

A future balloted and published version of this CQL-based HQMF Implementation Guide will contain these recommended changes. However, the Work Group felt that the activity in the US supporting the development and implementation of electronic Clinical Quality Measures (eCQMs) warranted that this letter be sent out to ensure that all who use this implementation guide have the most current information.

The list of errata changes are detailed in the separate file specified below:

The errata package contains:	
CQL-based_HQMF_STU3_Errata_Change_List_2018_08_31.xlsx	The file contains a listing of the errata changes to the Volume 3 of the CQL-based HQMF Implementation Guide, Release 1 - US Realm, STU3.

Sincerely,

A handwritten signature in black ink, appearing to read 'W. J. R. K.'.

HL7 CTO
