  - Co-Chair HL7 Mobile Health
  - Co-Lead HL7 EHR Interop
Agenda

- Mobile Health WG Mission
- Mobile Health WG Charter
- Mobile Health Stakeholders
- Mobile Health Definition & Scope Update
- Questions
MOBILE HEALTH WG MISSION

- The HL7 Mobile Health Work Group creates and promotes health information technology standards and frameworks for mobile health.
Mobile Health Workgroup Charter

- Identify (and develop, as applicable) data standards and functional requirements that are specific to the mobile health environment
- Identify and promote mobile health concepts for interoperability as adopted and adapted for use in the mobile environment
Coordinate and cooperate with other groups interested in using mobile health to promote health, wellness, public health, clinical, social media, and other settings.

Provide a forum where HL7 members and stakeholders collaborate in standardizing to enable the secure exchange, storage, analysis, and transmission of data and information for mobile applications and/or mobile devices.
Mobile Health Stakeholders
Definition and Scope

- Mobile Health is the use of mobile devices for Health Care.
- Scope of Mobile Health is broad and evolving.
- Within HL7 Mobile Health will need greater collaboration across many workgroups and standards bodies.
