  - Mobile Health - Matt Graham
  - Patient Care, AID - Michael Van der Zel
  - Structured Documents, Publishing, Templates, OHT liaison - Andy Stechishin
  - Vocabulary - Woody Beeler (interim)
- Discussion of merger with ES
- Other/New Business
Supporting Documents

Minutes

Minutes/Conclusions Reached:

1. MOTION: By M. Graham. Seconded by A. Kreisler. Approved minutes from 2014-06-12 Tooling Call
2. FHIR Liaison Update (L. McKenzie)
   - Regarding the tooling space, FMG is refactoring the requirements around FHIR registries. They want to finalize the requirements around the OID registry change in direction. Once finalized with FMG, which they hope to have done next week, they'll have the Tooling WG review them before proceeding to working on an RFP.
   - Continued Refactoring of publication tool
   - Work continues to be done on the FORGE tool for Profiles
3. Mobile Health Liaison Update (M. Graham)
   - No new requests
4. Structured Docs Liaison Update (R. Geimer)
   - The Templates DSTU is entering final publication, and some recommendations have come forward for template versioning which differs from what's been done in the past. SD WG felt they should be present at the Tooling WG call because these of these changes.
   - Andy was wondering on the impacts from a Tooling standpoint, Austin suggested that this change may have an impact on projects in flight with particular impact on the current ballot cycle and the ability to meet deadlines.
   - Sean then provided an demonstration of the changes to Trifolia
   - Trifolia used an individual OID for each version, but with negative comments it was decided to update the tool to follow the Templates DSTU
   - Austin noted that there should be testing done where projects are not using the recommended Template DSTU versioning,
   - Sean stated that Lantana has work in progress for exactly this scenario and it would be exercised.
   - Andy asked what would be required of Tooling, Rick and Austin thought the primary needs would education and assistance with testing during the rollout
   - ACTION: Obtain a definitive list of projects that would be impacted would be helpful. However, we can't get that until June 30th, after the NIBs have been submitted.
5. Discussion of merger with ES
   - No real updates, next action is for Lorraine and Andy to work on new proposed M&C
6. 
7. Adjourned 14:58 Eastern

Meeting Outcomes

Actions

- Obtain a definitive list of projects that would be impacted would be helpful. However, we can't get that until June 30th, after the NIBs have been submitted.
Next Meeting/Preliminary Agenda Items

- 2014-06-26 Tooling Call.
