Approved Projects

The TSC approved the following project, subject to final approval by the HL7 Executive Committee on their intent to create a public document:

**Individual Case Safety Report (ICSR) Implementation Guide** for the Patient Safety Work Group (PSWG) at TSC Tracker # 1676, Project Insight # 703. The project will create an Implementation Guide that sets the context for reporting adverse events and product problems to the US Food & Drug Administration, and potentially to other organizations operating within the US realm. The project is based on the Individual Case Safety Report (ICSR) specification which has passed normative ballot in HL7; however, it is still undergoing final balloting in ISO. The committee does not anticipate any additional changes to the specification as a result of a successful JIC DIS ballot.

Other Approvals:

The TSC approved the following request for an **out-of-cycle meeting**: RIMBAA will have a meeting on March 30th and 31st, 2011 in Washington DC. Meeting information, venue and hotel information are available at the wiki page [http://wiki.hl7.org/index.php?title=RIMBAA_201103_Agenda](http://wiki.hl7.org/index.php?title=RIMBAA_201103_Agenda). The purpose of this out-of-cycle meeting is to offer a platform for the exchange of experiences by HL7 version 3 implementers who are located in North America.

The TSC acknowledged the Executive Committee approval of an **out-of-cycle meeting for the GAS WG** (Generation of Anesthesia Standards) WG on February 16 and 17, 2011 in London, UK in lieu of attendance at the regularly scheduled WGM.

Statistic of the Week:

There has been a great deal of discussion of late on the navigation on the HL7 Wiki. If you want to learn more about all the ways the wiki is used, you can see many kinds of statistics on the wiki’s “Special Pages” page at [http://wiki.hl7.org/index.php?title=Special:Specialpages](http://wiki.hl7.org/index.php?title=Special:Specialpages). For example: the Statistics page reports that while there are 6,539 total pages in the database, probably only 3,421 are legitimate content pages. That’s still a lot of content!
How to find TSC information
The TSC wiki site houses its minutes, process documents, templates, links to the ArB wiki and the TSC Issue Tracker, a list of current projects, and more. You can access the TSC wiki at: http://www.hl7.org/permalink/?TSCWiki. See the links below for instructions on how to view the list of projects and access the TSC Issue Tracker.

- TSC Tracker: link to http://gforge.hl7.org/gf/project/tsc/tracker/?action=TrackerItemBrowse&tracker_id=313
- Project Insight Searchable Database: link to http://www.hl7.org/permalink/?searchableProjectIndex
- Project List on GF orge: link to http://gforge.hl7.org/gf/project/tsc/frs/?action=FrsReleaseBrowse&frs_package_id=98
- Project Insight: link to http://www.hl7.org/permalink/?ProjectInsight, (requires PMO-assigned log in credentials)
