HL7 Working Group Updates from the TSC for the week of August 22\textsuperscript{nd} 2011

Approved Projects

HL7 Strategic Initiatives Dashboard Project – for the TSC at Project Insight # 799, cosponsored by the Board of Directors and Electronic Services. The scope of this project to implement a dashboard showing the TSC progress on implementing the HL7 Strategic Initiatives that the TSC is responsible for. The HL7 Board of Directors has a process for maintaining the HL7 Strategic Initiatives. The TSC is responsible for implementing a significant number of those initiatives. As part of developing a dashboard, the TSC will need to develop practical criteria for measuring progress in implementing the strategic initiatives. There are two aspects to the project. First is the process of standing up the dashboard itself. This may end up being a discrete project handed off to Electronic Services and HQ. That dashboard would track progress towards all of HL7’s strategic initiatives (not just those which TSC is responsible for managing.) The second part of this project will be focused on the Strategic Initiatives for which the TSC is responsible.

Other Approvals

The TSC approved an Out of Cycle Meeting Request, for Pharmacy Work Group, October 5-7 2011 in Paris, France. Purpose: (1) To meet joint with IHE Pharmacy and collaborate on some topics of shared interest. (2) To work on preparing the institutional use-cases and identifying changes to existing materials.
