Other Approvals

The TSC approved an Out of Cycle Meeting Request for RIMBAA on 2013-03-5 and 26 in Hamilton, ON CAN sponsored by Mohawk College. The purpose of this out-of-cycle meeting is to offer a platform for the exchange of experiences by HL7 version 3 implementers. Mohawk College runs a healthcare software implementation program for students and this OOC provides a unique opportunity to combine real-world implementation experience with an academic program. This out-of-cycle meeting focuses on HL7 version 3 implementation experiences and the wider context of implementing interoperable systems when key components use RIM-based models (RIMBAA). The agenda of the proposed out-of-cycle meeting is available at http://wiki.hl7.org/index.php?title=RIMBAA_201303_OOC_Agenda

The TSC approved a modification to the Project Scope Statement in follow up to TSC response to the ANSI audit by adding check box for Work Groups to notify the TSC when a project is moving to normative.

Updated TSC guidance on reballoting standards was also approved.

The TSC also endorsed an updated guidance document for Steering Division chairs to use when considering Project Scope Statement approvals.

The TSC endorsed a Co-Chair handbook wiki page to allow quick access from the HL7 wiki to the resources typically specified in the co-chairs handbook.

Announcement: FTSD has approved an updated Mission and Charter statement for RIMBAA
