HL7 CDA® Implementation Guide for National Medical Care Surveys at Project Insight #1002 for PHER WG of DESD and cosponsored by SDWG of SSD SD. This will include mapping the data elements required by the surveys to existing CDA templates. Additionally, it will involve the creation of new CDA templates, where needed. Work produced through this project will align with and reuse existing Meaningful Use standards (e.g. CDA templates cited under Meaningful Use Stage 2) and Quality Reporting Document Architecture (QRDA), where possible.
