DSTU Publication Requests

**HL7 Version 2.6 Implementation Guide: Early Hearing Detection and Intervention (EHDI) Results Release 1** for PHER of DESD at Project Insight #868 requests publication for 24 months. The Implementation Guide for Early Hearing Detection and Intervention (EHDI) results focuses on standardizing how newborn hearing screening information is transmitted from a point of care device to an interested consumer such as public health.

**HL7 Implementation Guides for CDA Release 2: IHE Health Story Consolidation, DSTU Release 1.1 - US Realm** at Project Insight #728 with initial expiration date July 24, 2014 for SDWG of SSD SD requests extension for one year to July 2015 with no change to content. Extending the DSTU date will allow sufficient time for the new version of C-CDA to be published, and will allow current federal regulations to continue pointing to a valid DSTU vs. an expired one.

Other Approvals:

Withdrawals

**Additional Information Specifications 0011: Periodontal Attachment** at Project Insight 314 and TSC Tracker 2940 for Attachments WG which is requesting withdrawal. Last balloted in 2007, the WG determined at the January WGM that the Periodontal Attachment be sunset and a new request for this attachment will be started at a latter date using C-CDA R2.
