Other Approvals: Withdrawal Request

HL7 Clinical Context Management Specification (CCOW) Application Protection Package, Release 1
HL7 Clinical Context Management Specification (CCOW) Context Manager Protection Package, Release 1
HL7 Clinical Context Management Specification (CCOW) User Authentication Protection Package, Release 1 for InM of FTSD requesting withdrawal of these protection packages at Project Insight #980. This is NOT to withdraw the whole CCOW standard - only the protection package. Last voted for reaffirmation in 2013Sep, the WG states that the specification is not complete, has not kept up with ISO 15408:2009, and the specification has not been useful. ISO-15408 did not have the market impact expected when this work was undertaken.

HL7 Version 3 Standard: Patient Administration, DSTU Release 2; Person Registry Enhancement, Release 1 (2012SEP) is ready to be balloted as a normative standard by Patient Administration of SSD SD under Project Insight # 576

Congratulations to the SOA WG on the completion of the recirculation ballot for the HL7 Version 3 Standard: Identification and Cross-Reference Service (IXS), Release 1 and eligibility for normative publication!

How to find TSC information

The TSC wiki site houses its minutes, process documents, templates, links to the ArB wiki and the TSC Issue Tracker, a list of current projects, and more. You can access the TSC wiki at: http://www.hl7.org/permalink/?TSCWiki. See the links below for instructions on how to view the list of projects and access the TSC Issue Tracker.

- TSC Tracker: link to http://gforge.hl7.org/gf/project/tsc/tracker/?action=TrackerItemBrowse&tracker_id=313
- Project Insight Searchable Database: link to http://www.hl7.org/permalink/?searchableProjectIndex
- Project List on GForge: link to http://gforge.hl7.org/gf/project/tsc/frs/?action=FrsReleaseBrowse&frs_package_id=98
- Project Insight: link to http://www.hl7.org/permalink/?ProjectInsight, (requires PMO-assigned log in credentials)
