Approved Projects

**HL7 Clinical Document Architecture, Release 3.0** for SDWG of SSD SD cosponsored by Templates, Vocabulary, ITS, M&M of FTSD and Clinical Statement of SSDSD at Project Insight 477 which intends to ballot direct to normative in January 2015. The HL7 Clinical Document Architecture (CDA) is a document markup standard that specifies the structure and semantics of "clinical documents" for the purpose of exchange. The CDA 3.0 project will undertake an incremental refresh of the CDA standard.

**Records Management/Evidentiary Support Functional Profile (of EHR System Functional Model Release 2) Release 2 (RM-ES FP R2)** for EHR WG of SSD SD at Project Insight 1078 with plans to ballot normative in 2014September. The Records Management and Evidentiary Support Functional Profile (RM-ES FP) Release 2 will identify and support functionality necessary in EHR systems to establish and maintain the authenticity and integrity of electronic health records in a manner that enables their use for clinical, business, compliance and legal evidentiary purposes.

**Reaffirmation of HL7 EHR Clinical Research Functional Profile, Release 1** for EHR WG of SSD SD cosponsored by RCRIM of DESD at Project Insight # 1075. This project is for Reaffirmation of normative standard for HL7 EHR Clinical Research Functional Profile, Release 1. This standard reaches its 5-year ANSI anniversary 7/19/2014.

Approved Publications

**DSTU Update Publication Requests (Unballoted DSTU updates)**

**Other Approvals:**

**WG Formation Requests**

**BRIDG (Biomedical Research Integrated Domain Group) Working Group** joins DESD to support re-initiation of CDISC and Pharmaceutical industry support of HL7 for this domain analysis model. The WG would give complete emphasis and support to the future development and global implementation of this domain analysis model into International Data Model of HL7, CDISC and ISO for the support of healthcare and clinical research.
Appointments

- TSC ratified the FGB appointments of Lorraine Constable and Dave Shaver
- TSC named Freida Hall and Melva Peters to represent them at the HL7 Nominations Committee
- The HL7 Technical Steering Committee confirmed that even for comment only ballots, a Project Scope Statement (PSS) is required. This is consistent with the Governance and Operations Manual (GOM) at §13.03 Comment-only Ballot. The Project Scope Statement is the document that allows HL7 to socialize within the community those items that the organization is working on and make sure that it meets the expectations of those involved. This consistent process provides for a transparent and open discussion regarding how resources are managed and used within HL7.

Announcements:

- Congratulations to the EHR WG for their request for normative publication of **HL7 EHR-System Functional Model, Release 2** at Project Insight #551
- Congratulations to the SOA WG for their request for normative publication of **HL7 Version 3 Specification: hData Record Format, Release 1** at Project Insight #783
- Congratulations to the ITS WG for their request for normative publication of **HL7 Version 3 Standard: XML Implementation Technology Specification - Wire Format Compatible Release 1 Data Types, Release 1** at Project Insight #760
- Congratulations to the Publishing WG of T3SD for their request for normative publication of **HL7 Version 2.8 Messaging Standard** at Project Insight #723

How to find TSC information

The TSC wiki site houses its minutes, process documents, templates, links to the ArB wiki and the TSC Issue Tracker, a list of current projects, and more. You can access the TSC wiki at: [http://www.hl7.org/permalink/?TSCWiki](http://www.hl7.org/permalink/?TSCWiki). See the links below for instructions on how to view the list of projects and access the TSC Issue Tracker.
