

HL7 EC-WG & ACEP SEMI Conference Call 2011-1-13

Thursday, January 13, 2011
10:21 AM

Laura
Jeff
Kevin B
Jim
Angela

Logo: Suggestions are acceptable

Should we have an ACEP Informatics Committee?

Kevin B. will take point and check with Sandy (ACEP President) and Randy Case on what is involved and if the time is right. Randy will be tasked with taking this to the board.

EHR functional Model.

The HL7 ECWG will be focusing on completion of the EHR-FM over the next quarter with the intent to ballot by April. Reconciliation will occur during the May WG meeting in Orlando with expectation that the EDIS FP can be balloted in the next cycle.

Jim asked for help. Kevin B suggested contacting Adam Landman at Brigham.
Jim will send Kevin B Info for Adam Landman

Scribes:

SEMI believes scribes are not useful for meaningful use. The [Article in EMNews](#) by B. Katz indicates that Millennial physicians do not want scribes.

Steven Horng, an informatics fellow at Beth Israel Deaconess, proposed a Section Grant to fund externship/travel stipends for students and residents interested in informatics. Jeff pointed out that the Section Grants don't fund travel or time. Jim sent Steven a response to that effect.

Laura H. discussed the proposal from Peter Park for a formal CDA specification to support international patient transfer. The specific use case is between military services with the suggestion to expand this. Laura is working with IHE on a similar specification and will take the suggestion to them.

Informatics curriculum and subspecialty certification

Jeff N. will circulate his draft and contact Ben Munger for next steps.

Actions:

Angela to update logo for SEMI

Kevin B. will look into committee formation

Jim will contact Peter to get latest on EDIS FP and have Kevin B. recruit Adam Landman

Laura will work with IHE on spec for international transfers

Jeff N. will contact Ben Munger concerning curriculum
