

1:45 – 3:00 pm

HL7 FHIR's Impact on the Industry

Value-Based Care Eligibility and Enrollment Challenges. How FHIR Can Support Key Usage Scenarios and What Is Still Missing

Hank Head, Vice President of Clinical Decision Support Tools, McKesson Specialty

FHIR on the Front Lines of Healthcare

James Tcheng, MD, Professor of Medicine, Professor of Community and Family Medicine, Duke University School of Medicine

Clinical Research and FHIR: The TransCelerate eSource Project

Jesper Kjaer, Manager, Clinical Systems Management, eTrials, Novo Nordisk

3:00 – 3:30 pm

Break (Please visit our Silver sponsor tables)

3:30 – 5:00 pm

Breakout Sessions

- Value-Based Care – Room 126
- Clinicians/CIIC – Room 133
- Biopharma – Room 239

DAY TWO – Thursday, December 6

8:30 – 9:00 am

On-site Registration and Continental Breakfast

9:00 – 9:30 am

Introduction to Day 2, Logistics and Breakout Session Reports

9:30 – 10:30 am

Keynote

Donald Rucker, MD, National Coordinator for Health Information Technology

10:30 – 11:00 am

Break (Please visit our Silver sponsor tables)

11:00 – 12:00 pm

Breakout Session and Wrap Up

- Value-Based Care – Room 126
- Clinicians/CIIC – Room 133
- Biopharma – Room 239

12:00 – 1:15 pm

Lunch and Gold Sponsor Solution Sessions

Breakout Session Topics

Value-Based Care:

- Continue work from our last session on care coordination discharge productivity use cases which include attribution/attestation, medication reconciliation/management, referrals/loss of data among players in the ecosystem
- Discuss how FHIR can help us with patient attribution and enrollment of patients to value-based care plans across institutions in a digital-first manner. As patients are enrolled into value-based care plans across the health systems, we need to identify them, attribute them properly, enroll them and track their program
- Update on the new DaVinci project

Biopharma:

- Review current state and recent accomplishments in using FHIR for Biopharma research, including Connectathons, PhUSE E2C project, and TransCelerate eSource project
- Review current and potential use cases and provide feedback to inform upcoming Connectathons
- Discuss how to improve collaborations with HL7 work groups, clinicians, value-based care, government, academia, SDOs (such as IHE and CDISC) and other stakeholder groups
- Discuss needs and next steps related to policies for consent, security, access, data sharing to facilitate secondary use of patient data to support research and safety use cases
- Discuss how to leverage FHIR Apps such as Patient Aggregators, and how to establish and manage an endpoints directory (of available FHIR API servers) associated with research sites, investigators, or direct patient data
- Discuss potential of FHIR Bulk Data Access Approach and R on FHIR to support analytics of real world data accessed through FHIR
- Review observations and conclusions. Debrief on speaker sessions, discuss ideas raised by speakers and those explored at other tracks
- Discuss objectives and timelines for FHIR implementation guides and providing input to FHIR R5 requirements, and set actions and plans for the future

Clinical Information Interoperability Council (Clinicians track):

- Report on the outcomes of the July meeting and briefly review activities since then
- Review initial drafts of the mission and vision statements for CIIC

- Review the current draft of the value proposition
- Describe how logical information models are used in the development of applications, decision support modules, and other software
- Discuss plans for the January meeting in Salt Lake City, UT

DAY ONE – Wednesday, December 5

7:45 – 8:30 am

Badge Pickup, On-site Registration, Continental Breakfast

8:30 – 9:00 am

Welcome, Logistics for the Day and an Update on HL7 FHIR®

Speakers:

Charles Jaffe, MD, PhD, CEO, HL7 International
Wayne Kubick, CTO HL7 International

9:00 – 9:20 am

Keynote

Micky Tripathi, PhD, President and CEO, Massachusetts eHealth Initiative; Project Manager, The Argonaut Project

9:20 – 10:20 am

Implementers Panel

Facilitator:

Charles Jaffe, MD, PhD, CEO, HL7 International

Speakers:

Janet Campbell, Vice President of Patient Experience, Epic
Mark Gingrich, Chief Information Officer, Surescripts LLC
Adam White, Strategist, Open Platform Business Development, Cerner Corporation

10:20 – 10:30 am

Overview of Breakout Sessions

Speaker:

Wayne Kubick, CTO, HL7 International

10:30 – 11:00 am

Break (Please visit our Silver sponsor tables)

11:00 – 12:30 pm

Breakout Sessions

- **Value-Based Care** – Room 126
- **Clinicians/CIIC** – Room 133
- **Biopharma** – Room 239

12:30 – 1:45 pm

Lunch and Gold Sponsor Solution Sessions
